Over the past few years a series of high-profile dialogues have been held between Roman Catholic Christians and Shi'i Muslims, on topics such as 'Theology and Spirituality', 'Faith and Reason', and 'Ethics' (including Environmental Ethics, Bioethics, and Business Ethics).

These conversations were arranged by significant institutions in Iran and the UK, and were held at different academic and monastic institutions.

This event will provide an opportunity to hear from two of the architects of this dialogue, who are also the editors of the publications which emerged from them, about how the conversations progressed, and also about their assessment of the future of Catholic-Shi'i dialogue.

This event is free of charge and no booking is necessary.
