'Predictors of survival in patients with dementia - insights from a memory clinic cohort'

08 November 2010 - Alan Gow

15 November 2010 - René Mõttus

'Individual and age differences in personality traits can be studied by means other than retrospective and abstract self-reports'

22 November 2010 - Susan Shenkin (Geriatric Medicine, Astley Ainslie Hospital)

'Early life influences on cognitive ageing'

29 November 2010 - Mario Parra

'Insights into an age-related dissociation in short-term memory binding'

06 December 2010 - Dominika Dykiert

Semester 2

17 January 2011 - Catherine Calvin, Donald Lyall, Andrea Zammit, and Simon Cox

"What are PhD students from other Lifelong Health and Wellbeing (LLHW) Centres in the UK currently researching? Feedback on November's LLHW retreat from CCACE students"

24 January 2011 - Donald Lyall

31 January 2011 - No meeting

07 February 2011 - Gail Davies

Cognitive ageing results from GWAS

14 February 2011 - Jo Brooks

'Tactile rod bisection across lifespan: an automatic and continuing tendency to pay more attention to the left side of space'
21 February 2011 - Wendy Johnson

28 February 2011 - Andy MacLeod

'Rare Copy Number Variants are not associated with General Intelligence ... Or Are They?'

07 March 2011 - Lorna Lopez

14 March 2011 - Insa Feinkohl

'The age-prospective memory paradox: are age-related declines in prospective memory caused by task requirements to interact with a computer?'.

25 March 2011 (Friday) - Sophie von Stumm

'Effects of childhood IQ and status on health at midlife: formative and reflective models'
