Notes on Tuition Fees for Postgraduate Students following Taught and Research Masters Programmes

General

1. The 2011-2012 fee rates apply to all students who commence a new year or other period of study on or after 1 August 2011. Fees are subject to annual revision and are due in full at registration. The payment of fees is the responsibility of the student and, in the event of a student's sponsoring authority (if any) failing to make payment, the student will be held personally liable for payment. Annual programme and course fees cover matriculation, tuition and one diet of examination. They include an element in respect of membership of University unions, sports facilities, and other student facilities and amenities. Matriculated students who are not required to pay an annual programme or course fee should contact the Students' Association about associate membership.

2. Students are advised that they should be certain of their fee status before accepting an offer of admission. Further information and advice on fee status is available at www.ed.ac.uk/student-funding/fee-status

3. Information on tuition fee discounts can be found at: www.ed.ac.uk/student-funding/fees. These are the Graduate Discount Scheme which is available to alumni who have graduated with an undergraduate degree from the University of Edinburgh, and the Alumni (Visiting Undergraduate) Discount Scheme which is available to students who have previously matriculated on a "Visiting Programme" as a non-graduating undergraduate student and completed a minimum of one semester of study at the University of Edinburgh.

4. **Annual additional programme costs** may also be payable by postgraduate students as notified in their formal Letter of Admission. Rates vary according to the field of study. Please contact the appropriate College Postgraduate Office for further information.

5. No fees are payable in respect of periods of authorised interruption of studies of over 3 months duration.

6. A fee of £40 is payable prior to first graduation for registration as a member of the General Council.

7. In terms of Resolution of the University Court no. 7/1982, students in debt to the University may not be permitted to re-matriculate in future sessions, nor to graduate, if eligible to do so until the outstanding sum has been cleared. The University's Collection Policy for Student Fees and Related Charges can be found at <http://www.finance.ed.ac.uk/student/tuitionfees/>

8. **Withdrawal from the University:** Students who withdraw before 31 January will be liable for 60% of the annual tuition fees. If a student withdraws after this date, he/she will be liable for payment of the full session fees for the programme of studies and will not be entitled to a refund. At the discretion of the University, a full refund of tuition fees may be made to students who withdraw from a programme with appropriate academic approval within the first couple of weeks of starting their studies.

Annual Fees

9. Full-time candidates for the LLM, MSc, MTh, MMus and MBA pay one full-time annual fee. Full-time students who are admitted to these masters programmes but exit with an award of Diploma are liable for the appropriate full-time annual fee.

10. Full-time candidates for the MSW and Master of Counselling (Interpersonal Dialogue) pay two full-time annual fees. Full-time students who are admitted to these awards but exit with an award of Diploma are liable for the appropriate full-time annual fees.

11. Part-time Study

Part-time students who are admitted to a masters programme for a period of 2 or 3 years will be charged either 50% or 33% (as appropriate) of the full-time fee applicable to their programme of study in each academic session.

Part-time students who are admitted to a single course, Certificate or Diploma will be charged proportionally to the appropriate MSc fee, calculated on the basis of the number of credits undertaken.

12. Students continuing study beyond the period for which annual fees are payable

Any candidate continuing study beyond the period for which annual fees are payable are required to pay an annual matriculation fee until the date of submission.

13. Visiting Students

Visiting students admitted to full-time study for one semester will be charged at a semester rate which is one half (50%) of the corresponding full-time rate.

Visiting students who are admitted to a single course or courses will be charged proportionally to the appropriate MSc fee, calculated on the basis of the number of credits undertaken.

14. Modular MBA

Annual tuition fees for the Modular MBA will be charged proportionate to the full-time MBA annual fee and calculated on the number of credits being taken in the current academic session.

15. DCLinPsychol

Students will be charged annual fees in accordance with their prescribed period of study. Any student continuing study beyond the period for which annual fees are payable is required to pay an annual matriculation fee. A re-examination/re-submission fee of £290 is applied to this programme.
