Erasmus+

More than 300 partners Worldwide 40 Countries

Take advantage of opportunities to study in Europe and beyond via our Erasmus+ and International Exchange programmes.

You'll find current partner institutions for the 2019-20 academic year right here. The partners are listed in two categories:

University-wide exchanges

- ★ University-wide exchanges are open to most students in the College of Arts, Humanities and Social Sciences (CAHSS) and the College of Science and Engineering (CSE), and to students on some programmes in the Deanery of Biomedical Sciences
- ★ Before applying, you should check that the institution offers suitable courses for your degree programme.

Subject-specific exchanges

- ★ Subject-specific exchanges are open only to students whose degree programme is in the designated subject area.
- ★ These exchanges have been set up by individual Schools and Subject Areas so should offer appropriate and suitable courses to satisfy your degree programme.

Find out more about how our exchanges work, how to apply, the costs involved and funding available:

www.ed.ac.uk/student-exchanges

Our exchange programmes are very competitive. Unfortunately there is no guarantee that all applicants will be offered a place. All destinations are correct at the time of publishing. Opportunities vary from year to year and those listed may not be available every year.

University-wide exchanges

Exchanges open to almost any student whose degree permits a year abroad and who can find a suitable course combination. Restrictions apply.

Please check the Application Policy to confirm which universities are available, as this may change from those listed below.
