2013 – Undergraduate Honours Dissertations.

2013-1 ADAIR, Caitlin
Are effects of structural experience in language acquisition affected by structural frequency? Evidence from syntactic priming.
Professor Holly Branigan

2013-2 ADDAI, Cassandra
Community in practice: forum users’ interactions in a transgender online support group.
Dr Sue Widdicombe.

2013-3 AHLUWALIA, Amrita
‘Taking people as they are’: an interpretative phenomenological analysis exploring the experience and understanding of ‘white’ professionals supporting ‘minority ethnic’ populations.
Dr Billy Lee.

2013-4 D’ANNUNZIO, Gaby
‘It’s just a bit difficult when it’s all full of women’: a discursive research on the complaints and grievances of stay at home fathers.
Dr Sue Widdicombe.

2013-5 BARKER, Jessica
An exploratory study on the predictive capacity of emotional intelligence to explain risky decision-making and delay discounting behaviours.
Professor Elizabeth Austin.

2013-6 BARNES, Jenna
Cognitive ageing: the effects of disruption on multitasking abilities in healthy adults.
Dr Sarah MacPherson.

2013-7 BARRY, Alexandra Danielle
‘You always have to return to your parents’: an interpretative phenomenological investigation of Chinese attachment styles and experience in a changing world.
Dr Billy Lee

2013-8 BIDDLE, Alexandra Grace
Investigation into the relationship between smartphone usage and prospective memory.
Professor Robert Logie.

2013-9 BLUNN, Victoria
The effect of load adjustment on dual-tasking in working memory.
Professor Robert Logie.
2013-10  BROOKMANN, Lidia  
The effects of implicit theories and self-esteem on IQ, attributions and remedial action in undergraduates. 

Professor Tim Bates.  

2013-11  BUNNE, Astrid  
Exploring embodied wellbeing. 

Dr Billy Lee and Dr Neil Thin.  

2013-12  CARR, Adrian Moncrieff  
Implicit theories of intelligence, self-esteem and achievement behaviour in adults. 

Professor Tim Bates.  

2013-13  CARTER, Sophie  
Emotional intelligence and manipulation: are those scoring higher on EI measures more likely to negatively manipulate others' for personal gains? 

Professor Elizabeth Austin.  

2013-14  CLARK, James  
Evaluating the content and the status of a thought: two declining aspects of theory of mind in ageing. 

Dr Sharon Abrahams.  

2013-15  CLARKSON, Harriet  
A bilingual advantage in young adults: unfounded or undetectable? 

Dr Thomas Bak and Professor Antonella Sorace.  

2013-16  CLEREY, Helen  
Is selective attention to social scenes indicative of individual differences within a typical student population. 

Dr Karri Gillespie-Smith.  

2013-17  CORNELL, Ella  
Online study of melanoma identification: the roles of ABC information and photographic examples in lesion discrimination. 

Dr Rob McIntosh.  

2013-18  COTTER, Melissa  
Social inhibition of picture naming task: the effects of concurrent compared to consecutive naming when acting on belief of cooperative participation. 

Professor Martin Pickering.
2013-19  **Crichton, Calum**  
Investigating and comparing the magnitude of syntactic priming effects between young children and adults.  
Professor Holly Branigan.

2013-20  **Doll, Tom**  
The effect of auditory and contextual emotional cues on the ability to recognise facial expressions of emotion in healthy adult aging.  
Dr Sarah MacPherson.

2013-21  **Druce, Megan**  
Whose belief is it anyway? A study into the effects of inhibition and emotion on perspective-taking in younger and older adults.  
Dr Sharon Abrahams.

2013-22  **Duncan, Nikki**  
The effect of auditory and contextual emotional cues on the ability to recognise facial expressions of emotion in healthy adult aging.  
Dr Sarah MacPherson.

2013-23  **Fawns-Ritchie, Chloe**  
Letter fluency in motor neurone disease: is there a specific action word deficit?  
Dr Sharon Abrahams.

2013-24  **Ferguson, Louis**  
The effect of fMRI environment on Visual Working Memory task performance.  
Professor Robert Logie.

2013-25  **Findlay, Emma**  
Predictive nature of IQ and personality traits on the development of social potency.  
Dr Wendy Johnson.

2013-26  **Floutier, Will**  
What is the role of cue timing in unconscious action priming?  
Dr David Carmel.

2013-27  **Fullerton, Joanne**  
A new approach to assessing situations: neuroticism-behaviour contingencies as a function of situational characteristics.  
Dr Lars Penke.

2013-28  **Gibbon, Sarah Elizabeth**  
Emotion recognition: the effects of age on the identification of emotion from facial and body expressions.  
Dr Sarah MacPherson.
2013-29  GIBBS, Jemma K
Associative memory in younger and older adults: the roles of novelty and schema.
Dr Alexa Morcom

2013-30  GILLESPIE, Martha Eleanor
An interpretative phenomenological analysis exploring the client’s experience of therapy: making sense of therapy.
Dr Billy Lee.

2013-31  HAEFLIGER, Anna Berenika
Does musical stimuli in memory recognition tasks affect musicians and non-musicians differently.
Dr Alexa Morcom.

2013-32  HAMILTON, Calum
Dissociation of verbal and visuospatial working memory.
Professor Robert Logie.

2013-33  HILL, Louisa
Does syntactic priming in children persist across significant time periods?
Professor Holly Branigan.

2013-34  HOLTON, Joshua
Joining the dark side: a validation of the Changing Moods Scale exploring how Emotional Intelligence can be used to worsen as well as improve the moods of others.
Professor Elizabeth Austin.

2013-35  HUTTON, Jenny
Investigating the effects of psychological factors on belief and experience of precognitive dreams.
Dr Caroline Watt.

2013-36  IRWIN, Suzanne
In-group, out-group and the Shared-Stroop Effect.
Professor Martin Pickering and Chiara Gambi.

2013-37  JAMIESON, Astryd E
Patients attend therapy differently: an exploration of private psychology practice.
Dr Richard Shillcock and Dr Alison Harper.

2013-38  KENNEDY, Kate L G
Mirror writing across cultures: motor hypothesis versus directional apraxia in dextrad and sinistrad writers.
Dr Rob McIntosh
2013-39  **KRAHÉ, Felix**  
The limitations of TRACE.  
Dr Richard Shillcock.

2013-40  **LAMONT, Anna**  
Reward and punishment sensitivity in depression-evidence from the Iowa Gambling Task.  
Professor Elizabeth Austin.

2013-41  **LANE, Jessica A**  
Implicit theories of intelligence: can your beliefs make you smarter?  
Professor Tim Bates

2013-42  **LECKIE, Chelsea**  
Multitasking: the cognitive correlates and age-related differences in ability.  
Dr Sarah MacPherson.

2013-43  **LORaine, Melissa**  
How psychical researchers construct their research as scientific: a discursive approach.  
Dr Peter Lamont.

2013-44  **McdAde, Rachel**  
Fathers who care: exploring masculinity within the accounts of stay at home dads.  
Dr Sue Widdicombe.

2013-45  **Mcdonald, Alistair**  
The effects of physical formidability on anger and aggression.  
Dr Lars Penke.

2013-46  **Mackay, Hannah**  
Ownership in children: is this form of self-referential processing associated with theory of mind development?  
Dr Karri Gillespie-Smith

2013-47  **Mckenna, Martine**  
Implicit theories of intelligence: effects on attributions, grade average, task choice and test scores.  
Professor Tim Bates.

2013-48  **McmEddes, Rurigdh**  
Warranting disbelief: a discourse analytic study of the justification of modern scepticism.  
Dr Peter Lamont
2013-49  MARKWICK, Rosie
Coping responses, personality and psychological well-being: dealing with daily life stressors.

Dr Alexander Weiss.

2013-50  MARSON, Rosy
Community in practice: new user interaction in an online transgender forum.

Dr Sue Widdicombe.

2013-51  MICHE, Sarah Danielle
‘Down past the turtle’: exploring how native and non-native speakers negotiate misunderstanding in a paired map task.

Professor Martin Pickering.

2013-52  MITCHELL, Holly
Understanding ‘Man’s best friend’: the comparison of pre-schoolers’ abilities to identify emotions in humans and dogs using different stimuli.

Dr Joanne Williams and Dr Alexa Morcom.

2013-53  MORTON, David R
Temporal discounting in moral and economic judgement.

Dr Adam Moore.

2013-54  MOULDS, David J
Who believes in the paranormal? An integrative approach to individual differences.

Dr Alex Weiss.

2013-55  MOWAT, Emma L
Making psychology a science: a discourse analysis upon the history of psychology within introductory psychology textbooks.

Dr Peter Lamont.

2013-56  NEILL, Rebecca
Correlates of precognitive dream belief and experience.

Dr Caroline Watt.

2013-57  NEVAY, Robyn
Healthy adult ageing: multitasking abilities and the impact of interruptions.

Dr Sarah MacPherson.

2013-58  NUTTALL, Rachel
Investigating the effects of everyday memory failures, transliminality, cognitive thinking styles and implicit learning on reported precognitive dream experience and belief.

Dr Caroline Watt.
2013-59  **PETTIT, Annabel**
Performance in the free and cued selective reminding test: pictures versus words.
Dr Sharon Abrahams.

2013-60  **PICKERSGILL, Mhairi**
An investigation into the effects of healthy adult ageing on everyday multitasking and the cognitive correlates that contribute to enhanced performance.
Dr Sarah MacPherson.

2013-61  **PONS, Jessica**
‘You don’t really act black do you’: the lived experience of mixed-race identity: an interpretative phenomenological study.
Dr Billy Lee.

2013-62  **PUSTER, Bálint P**
The relationship of facial fluctuating asymmetry with self-perceived physical attractiveness, aggression and extraversion.
Dr Lars Penke.

2013-63  **RENWICK, Grace**
Investigating the correlates of precognitive dream belief and experience.
Dr Caroline Watt.

2013-64  **ROCCA, Victoria**
19th Century spiritualism: how proponents deploy particular arguments in order to maintain belief despite negative evidence.
Dr Peter Lamont.

2013-65  **ROSE, Sarah**
Exploring clients’ experience of therapy using Interpretative Phenomenological Analysis.
Dr Billy Lee.

2013-66  **RUTHERFORD, Siobhan**
Can dogs be ‘Child’s best friend?’: an investigation into pre-schoolers’ emotion recognition abilities in dogs and humans using photo and video stimuli.
Dr Joanne Williams.

2013-67  **SALMONSSON, Sally**
Personality development in monozygotic twins of varying IQ discordance.
Dr Wendy Johnson

2013-68  **SALVESEN, Tanya Frostestad**
Body cues to narcissism.
Dr Lars Penke.
2013-69  **SEDCOLE, Rebecca L**  
Age differences in conceptual and perceptual comparisons of visual stimuli.  
Dr Alexa Morcom & Laura Pidgeon.

2013-70  **SEEDS, Sophie**  
Smokers are not a homogeneous group, and smoking is not a uniform behaviour: profiling psychosocial characteristics differentiates between smoking patterns.  
Dr Alex Weiss.

2013-71  **SHEARER, Greg**  
Social pressures and task performance.  
Dr Alex Weiss.

2013-72  **SHERLOCK, Laura**  
Early life influences on cognition: Lanarkshire 1936.  
Dr Susan Shenkin and Professor Ian Deary.

2013-73  **SHOHET, Zachary**  
Is selective attention to social scenes indicative of individual differences?  
Dr Karri Gillespie-Smith.

2013-74  **SIM, Christopher**  
Observing isolation: an attempt to measure the effects of exclusion on the Global Belongingness Scale.  
Dr Alex Weiss.

2013-75  **SMART, Emily L**  
Occupational complexity and lifetime cognitive abilities.  
Dr Alan Gow and Professor Ian Deary.

2013-76  **SMITH, Denise A**  
Paranormal belief: an investigation into individual differences in believers and non-believers.  
Dr Alex Weiss.

2013-77  **STACEY, Jemima J C**  
Individual differences and decision-making: an exploratory study into Emotional Intelligence and its effect on risky decision-making and delay discounting behaviours.  
Dr Elizabeth Austin.

2013-78  **STEVENSON, Lin**  
Watch your step: embodied effects in moral cognition.  
Dr Adam Moore.
2013-79  TAN, Jiunyi  
The effects of Interruption Task complexity and interruptions on student multitasking.  
Professor Robert Logie

2013-80  TAYLOR, Kari Dianne  
Self-theories and alternative variables : impacts on IQ and achievement.  
Professor Tim Bates.

2013-81  THIEDE, Emily  
An investigation of episodic memory for item and associative memory in aging.  
Dr Alexa Morcom.

2013-82  THOMPSON, Jade  
In right handed people, which hand is better at mirror writing ? Are there any differences between unimanual and bimanual conditions ?  
Dr Rob McIntosh.

2013-83  THORLEY, Natasha  
The influence of the picture superiority effect on performance in the word and picture form of the Free and Cued Selective Reminding Test.  
Dr Sharon Abrahams.

2013-84  VARNEY, Fiona  
What impacts decision-making in the Iowa Gambling Task ? A study into depressive symptoms, personality, affect and motivation.  
Professor Elizabeth Austin.

2013-85  WAI, Deborah  
Big 5 personality traits as predictors of conformity.  
Dr Alex Weiss.

2013-86  WARRINER-GALLYER, Genevieve  
Facial structure and its associations with behaviour in men and women.  
Dr Lars Penke.

2013-87  WHITE, Lewis  
The making of paranormal belief : history, discourse analysis and the object of belief.  
Dr Peter Lamont.

2013-88  WILSON, Danielle  
The emergence of self-referential memory in children : related to theory of mind development.  
Dr Karri Gillespie-Smith
2013-89  WYSOCKI, Piotr
Embodied moral cognition.
Dr Adam Moore.

2013-90  YOUNG, Jean
Investigating negotiation and successful communication in non-native directed speech.
Professor Martin Pickering.

2013-91  ZHANG, Jining
Multitasking and prospective memory: resistance to the effect of interruptions in a computer-based student study setting.
Professor Robert Logie.
