Selected publications by members of the Asthma UK Centre for Applied Research, 2020 - 2018

Oct-20

Preschool wheeze: Challenges and research prospects reply to: Dr Jartti and Colleagues; in response to our manuscript entitled: Medical algorithm: Diagnosis and treatment of preschool asthma.

Bush A, Saglani S.

Attenuating COVID-19 infection and inflammation: Lessons from asthma.

Bardin PG, Johnston SL.

Medical algorithm: Diagnosis and treatment of preschool asthma.

Bush A, Saglani S.

Accelerating Innovation in Health Care: Insights From a Qualitative Inquiry Into United Kingdom and United States Innovation Centers.

Cresswell K, Williams R, Carlile N, Sheikh A.

Completing asthma action plans by screen-sharing in video-consultations: practical insights from a feasibility assessment.

Hamour O, Smyth E, Pinnock H.

Formative independent evaluation of a digital change programme in the English National Health Service: study protocol for a longitudinal qualitative study.

Living risk prediction algorithm (QCOVID) for risk of hospital admission and mortality from coronavirus 19 in adults: national derivation and validation cohort study.

Developing core economic parameter sets for asthma studies: a realist review and an analytical framework.

Roukas C, Quayyum Z, Patel A, Fitzsimmons D, Phillips C, Hounsome N.

Understanding and responding to COVID-19 in Wales: protocol for a privacy-protecting data platform for enhanced epidemiology and evaluation of interventions.

Selected publications by members of the Asthma UK Centre for Applied Research, 2020 - 2018

Electronic adherence monitoring identifies severe preschool wheezers who are steroid responsive.

Empowering children and young people who have asthma.

Why digitally-enabled health system transformation needs different forms of innovation.

Cresswell K, Williams R, Carlile N, Sheikh A.

Update in Asthma 2019.

Health and cost impact of stepping down asthma medication for UK patients, 2001-2017: A population-based observational study.

Bloom CI, de Preux L, Sheikh A, Quint JK.

Prenatal, Early-Life, and Childhood Exposure to Air Pollution and Lung Function: The ALSPAC Cohort.

Am J Respir Crit Care Med. 2020 Jul 1;202(1):112-123.

The Medication Adherence Report Scale: A measurement tool for eliciting patients' reports of nonadherence.

Chan AHY, Horne R, Hankins M, Chisari C.

ARIA-EAACI statement on Asthma and COVID-19 (June 2, 2020).

Asthma and COVID-19: Is asthma a risk factor for severe outcomes?
Johnston SL. Allergy. 2020 Jul;75(7):1543-1545.

Hypertonic saline nasal irrigation and gargling should be considered as a treatment option for COVID-19.

Sex steroid hormones and asthma in women: state-of-the-art and future research perspectives.

Maternal iron supplementation in pregnancy and asthma in the offspring: follow-up of a randomised trial in Finland.

Toward personalization of asthma treatment according to trigger factors.
Selected publications by members of the Asthma UK Centre for Applied Research, 2020 - 2018

Cutting edge or blunt instrument: how to decide if a stepped wedge design is right for you. Hooper R, Eldridge SM. BMJ Qual Saf. 2020 Jun 16:bmjqs-2020-011620.

Selected publications by members of the Asthma UK Centre for Applied Research, 2020 - 2018

ARIA digital anamorphosis: Digital transformation of health and care in airway diseases from research to practice.

Allergy. 2020 Jun 8.

**Improving primary care management of asthma: do we know what really works?**

**The Adaptive designs CONSORT Extension (ACE) statement: a checklist with explanation and elaboration guideline for reporting randomised trials that use an adaptive design.**

## Development and Reporting of Prediction Models: Guidance for Authors From Editors of Respiratory, Sleep, and Critical Care Journals.

## A worldwide charter for all children with asthma.

## Understanding how patients establish strategies for living with asthma: a qualitative study in UK primary care as part of IMP2ART.

## The Medication Adherence Report Scale: A measurement tool for eliciting patients' reports of nonadherence.

## Practical Barriers to Medication Adherence: What Do Current Self- or Observer-Reported Instruments Assess?

## Volatile organic compounds associated with diagnosis and disease characteristics in asthma - A systematic review.

## Kids, Difficult Asthma and Fungus.

## If it's 'only' asthma, why are children still dying?

## Characterization of Severe Asthma Worldwide: Data From the International Severe Asthma Registry.

Selected publications by members of the Asthma UK Centre for Applied Research, 2020 - 2018

Early exposure to cats, dogs and farm animals and the risk of childhood asthma and allergy.

Vitamin D: can the sun stop the atopic epidemic?

Lung clearance index and steroid response in pediatric severe asthma.

Identifying patients at risk of poor asthma outcomes associated with making inhaler technique errors.

Short-course systemic corticosteroids in asthma: striking the balance between efficacy and safety.

Patient and public involvement in research: from tokenistic box ticking to valued team members.

Call for Special Issue Papers: Effectiveness, Implementation and Dissemination Research in Integrative Health.

Hormonal contraceptives and onset of asthma in reproductive-age women: Population-based cohort study.

The NHS visitor and migrant cost recovery programme - a threat to health?

Defining high probability when making a diagnosis of asthma in primary care: mixed-methods consensus workshop.

Which Child with Asthma is a Candidate for Biological Therapies?

Using fractional exhaled nitric oxide to guide step down treatment decisions in patients with asthma: a systematic review and individual patient data meta-analysis.

Selected publications by members of the Asthma UK Centre for Applied Research, 2020 - 2018

**Efficacy and safety of treatment with biologicals (benralizumab, dupilumab and omalizumab) for severe allergic asthma.**

*Allergy. 2020 Feb 16.*

**Towards personalization of asthma treatment according to trigger factors.**

**Treatment patterns among non-active users of maintenance asthma medication in the United Kingdom: a retrospective cohort study**

**Lung clearance index and steroid response in pediatric severe asthma.**

**Jan-20 Effect of High-Intensity Training and Asthma on the V\[Combining Dot Above\]O2 Kinetics of Adolescents.**

McNarry MA, Winn CON, Davies GA, Eddolls WTB, Mackintosh KA.

**Overuse of short-acting β(2)-agonists in asthma is associated with increased risk of exacerbation and mortality: A nationwide cohort study of the global SABINA programme.**

Nwaru BI, Ekström M, Hasvold P, Wiklund F, Telg G, Janson C.

Implementation of digital health interventions in respiratory medicine: a call to action by the European Respiratory Society m-Health/e-Health Group.

Asthma reviews in children: what have we learned?

Longitudinal trajectories of severe wheeze exacerbations from infancy to school age and their association with early-life risk factors and late asthma outcomes.

Protocol for a multicentre randomised controlled trial to investigate the effect on asthma-related quality of life from breathing retraining in patients with incomplete asthma control attending specialist care in Denmark.

Allergic Rhinitis and Its Impact on Asthma Working Group. Next-generation Allergic Rhinitis and Its Impact on Asthma (ARIA) guidelines for allergic rhinitis based on Grading of Recommendations Assessment, Development and Evaluation (GRADE) and real-world

Eur Respir J. 2020 Jan 2;55(1). pii: 1900588.

Medical algorithm: Diagnosis and treatment of preschool asthma.

Bush A, Saglani S.

Allergy. 2020 Jan 3.

Use of antibiotics and asthma medication for acute lower respiratory tract infections in people with and without asthma: retrospective cohort study.

Denholm R, van der Werf ET, Hay AD.

Faber T, Mizani MA, Sheikh A, Mackenbach JP, Reiss IK, Been JV.

An innovative corticosteroid/long-acting β(2)-agonist breath-triggered inhaler: facilitating lung delivery of fluticasone propionate/formoterol fumarate for the treatment of asthma.

Usmani O, Roche N, Marshall J, Danagher H, Price D.

Severe asthma: Entering an era of new concepts and emerging therapies: Highlights of the 4th international severe asthma forum, Madrid, 2018.

The construct validity and responsiveness of the EQ-5D-5L, AQL-5D and a bespoke TTO in acute asthmatics.

Crossman-Barnes CJ, Sach T, Wilson A, Barton G.

Qual Life Res. 2019 Nov 2.

Seasonal influenza vaccine effectiveness in people with asthma: a national test-negative design case-control study.

Pharmacist-led adherence support in general practice: a qualitative interview study of adults with asthma.

Mes MA, Katzer CB, Wileman V, Chan AHY, Horne R, Taylor SJ C.

Feasibility trial of a digital self-management intervention 'My Breathing Matters' to improve asthma-related quality of life for UK primary care patients with asthma.

Ainsworth B, Greenwell K, Stuart B, Raftery J, Mair F, Bruton A, Yardley L, Thomas M.

Addressing the risk domain in the long-term management of pediatric asthma.

Hamelmann E, von Mutius E, Bush A, Szefler SJ.

Oct-19

Vitamin D for secondary prevention of acute wheeze attacks in preschool and school-age children.

Stefanidis C, Martineau AR, Nwokoro C, Griffiths CJ, Bush A.

Real-life effectiveness of inhaler device switch from dry powder inhalers to pressurized metered-dose inhalers in patients with asthma treated with ICS/LABA

Park HS, Yoon D, Lee HY, Ban GY, Wan Yau Ming S, Jie JLZ, Carter V, Hardjojo A, Van Boven JFM, Price DB.

A Patient-Centered Description of Severe Asthma: Patient Understanding Leading to Assessment for a Severe Asthma Referral (PULSAR).

Winders TA, Wilson AM, Fletcher MJ, McGuinness A, Price DB.

Effect of asthma and six-months high-intensity interval training on heart rate variability during exercise in adolescents.

Dust-mite inducing asthma: what advice can be given to patients?

Custovic A, Murray CS, Simpson A.

Genome-wide interaction study of early-life smoking exposure on time-to-asthma onset in childhood.

Toward clinically applicable biomarkers for asthma: An EAACI position paper.

Understanding Dry Powder Inhalers: Key Technical and Patient Preference Attributes.

Next-generation Allergic Rhinitis and Its Impact on Asthma (ARIA) guidelines for allergic rhinitis based on Grading of Recommendations Assessment, Development and Evaluation (GRADE) and real-world evidence.

A systematic review of psychological, physical health factors, and quality of life in adult asthma.

Preventing asthma deaths: above all, do no harm.

Introducing a model for emotional distress in respiratory disease: A systematic review and synthesis of symptom management models.

Challenges associated with missing data in electronic health records: A case study of a risk prediction model for diabetes using data from Slovenian primary care.

Prevalence and Characteristics of Asthma-Chronic Obstructive Pulmonary Disease Overlap in Routine Primary Care Practices.

Understanding Dry Powder Inhalers: Key Technical and Patient Preference Attributes.

Next-generation ARIA care pathways for rhinitis and asthma: a model for multimorbid chronic diseases.

Point-of-care biomarkers in asthma management: time to move forward. 
*Allergy.*

The relationship between real-world inhaled corticosteroids adherence and asthma outcomes: a multilevel approach.

The importance of real-life research in respiratory medicine: manifesto of the Respiratory Effectiveness Group: Endorsed by the International Primary Care Respiratory Group and the World Allergy Organization.
*Eur Respir J.* 2019 Sep 19;54(3). pii: 1901511.

ERS/EAACI statement on severe exacerbations in asthma in adults: facts, priorities and key research questions.
*Eur Respir J.* 2019 Sep 19;54(3). pii: 1900900.

Faber T, Mizani MA, Sheikh A, Mackenbach JP, Reiss IK, Been JV.

Selected publications by members of the Asthma UK Centre for Applied Research, 2020 - 2018

**Effects and costs of implementing predictive risk stratification in primary care: a randomised stepped wedge trial.**

**Aug-19 Elucidating the causes of asthma: how can we do better?**
Shaheen S.

**Paediatric asthma care in the UK: fragmented and fatally fallible**
Levy ML, Fleming L, Warner JO, Bush A.

**Dust-mite inducing asthma: what advice can be given to patients?**
Custovic A, Murray CS, Simpson A.

**Understanding reliever overuse in patients purchasing over-the-counter short-acting beta(2) agonists: an Australian community pharmacy-based survey**

**Mobile technology in allergic rhinitis: evolution in management or revolution in health and care?**

**Association of elevated fractional exhaled nitric oxide concentration and blood eosinophil count with severe asthma exacerbations**
Price DB, Bosnic-Anticevich S, Pavord ID, Roche N, Halpin DMG, Bjerner M, Usmani OS, Brusselle G, Ming SYW, Rastogi S.

**Jul-19 Distinguishing Wheezing Phenotypes from Infancy to Adolescence. A Pooled Analysis of Five Birth Cohorts**
Selected publications by members of the Asthma UK Centre for Applied Research, 2020 - 2018

Asthma impacts on workplace productivity in employed patients who are symptomatic despite background therapy: a multinational survey
Gruffydd-Jones K, Thomas M, Roman-Rodríguez M, Infantino A, FitzGerald JM, Pavord I, Haddon JM, Elsasser U, Vogelberg C.

Qualitative study of practices and challenges when making a diagnosis of asthma in primary care
Akindele A, Daines L, Cavers D, Pinnock H, Sheikh A.

Predicting asthma attacks in primary care: protocol for developing a machine learning-based prediction model

Vitamin D for secondary prevention of acute wheeze attacks in preschool and school-age children

Selected publications by members of the Asthma UK Centre for Applied Research, 2020 - 2018

Del Vecchio AM, Branigan P, San Mateo L, Baribaud F, Barnathan ES, Johnston SL.

**Hypocapnia correction as a working mechanism for breathing retraining in asthma - Authors' reply.**

Thomas M, Ainsworth B, Bruton A.

Mar-18

**Maternal iron status during pregnancy and respiratory and atopic outcomes in the offspring: a Mendelian randomisation study.**

Bédard A, Lewis SJ, Burgess S, Henderson AJ, Shaheen SO.

**Socioeconomic and ethnic inequalities in exposure to air and noise pollution in London.**

**Finding and using routine clinical datasets for observational research and quality improvement.**

McDonnell L, Delaney BC, Sullivan F.

**Development of allergic sensitization and its relevance to paediatric asthma.**

Oksel C, Custovic A.

**Urban particulate matter stimulation of human dendritic cells enhances priming of naive CD8 T lymphocytes.**

Pfeffer PE, Ho TR, Mann EH, Kelly FJ, Sehlstedt M, Pourazar J, Dove RE, Sandstrom T, Mudway IS, Hawrylowicz CM.

**Ethnic differences in the association between maternal vitamin D status and offspring asthma and wheeze: Findings from the Born in Bradford cohort study.**

Santorelli G, Wright J, Sheikh A.

*Allergy.* 2018 Mar 23.

**Prescribing Placebos: An Experimental Examination of the Role of Dose, Expectancies, and Adherence in Open-Label Placebo Effects.**

El Brihi J, Horne R, Faasse K.

**A study of particulate emissions during 23 major industrial fires: Implications for human health.**

Griffiths SD, Chappell P, Entwistle JA, Kelly FJ, Deary ME.

*Environ Int.* 2018 Mar 16;112:310-323.

</table>
Development of allergic sensitization and its relevance to paediatric asthma.

After asthma: redefining airways diseases.

The Use of Online Health Forums by Patients With Chronic Cough: Qualitative Study.

Asthma breathomics-promising biomarkers in need of validation.

Prenatal maternal psychosocial stress and offspring’s asthma and allergic disease: a systematic review and meta-analysis.

Data sharing in clinical trials - practical guidance on anonymising trial datasets.

Childhood asthma prevalence: cross-sectional record linkage study comparing parent-reported wheeze with general practitioner-recorded asthma diagnoses from primary care electronic health records in Wales.

First trimester fetal size and prescribed asthma medication at 15 years of age.

'We can’t diagnose asthma until <insert arbitrary age>.'

Role of a prolonged inpatient admission when evaluating children with problematic severe asthma.

A randomised pragmatic trial of corticosteroid optimization in severe asthma using a composite biomarker algorithm to adjust corticosteroid dose versus standard care: study protocol for a randomised trial.

Endogenous and exogenous sex steroid hormones in asthma and allergy in females: a systematic review and meta-analysis.

Inhaler technique mastery and maintenance in healthcare professionals trained on different devices.

Green spaces could reduce asthma admissions.

Fractional exhaled nitric oxide as a predictor of response to inhaled corticosteroids in patients with non-specific respiratory symptoms and insignificant bronchodilator reversibility: a randomised controlled trial.

Effect of an Intervention to Promote Breastfeeding on Asthma, Lung Function, and Atopic Eczema at Age 16 Years: Follow-up of the PROBIT Randomized Trial.

The potential of anti-infectives and immunomodulators as therapies for asthma and asthma exacerbations.

Transfer of innovation on allergic rhinitis and asthma multimorbidity in the elderly (MACVIA-ARIA) - EIP on AHA Twinning Reference Site (GARD research demonstration project).

β(2)-Agonists Enhance Asthma-Relevant Inflammatory Mediators in Human Airway Epithelial Cells. 
Ritchie AI, Singanayagam A, Wiater E, Edwards MR, Montminy M, Johnston SL. 

Dendritic cell phenotype in severe asthma reflects clinical responsiveness to glucocorticoids. 
Chambers ES, Nanzer AM, Pfeffer PE, Richards DF, Martineau AR, Griffiths CJ, Corrigan CJ, Hawrylowicz CM. 

Features of asthma which provide meaningful insights for understanding the disease heterogeneity. 
Deliu M, Yavuz TS, Sperrin M, Belgrave D, Sahiner UM, Sakesen C, Kalayci O, Custovic A. 

Multiancestry association study identifies new asthma risk loci that colocalize with immune-cell enhancer marks. 
Demenais F et al. 

Pro-inflammatory mediator responses from neonatal airway epithelial cells and early childhood wheeze. 
Turner S, Miller D, Walsh GM, Scaife A, Power UF, Shields MD, Devereux G. 

A missing voice: the human rights of children to a tobacco-free environment. 
Toebes B, Gispen ME, Been JV, Sheikh A. 
*Tob Control. 2018 Jan;27(1):3-5.*

European Respiratory Society International Congress 2017: highlights from the Clinical Assembly.
