

Sunday 14th April

Jesus College, Cambridge

VENUE

- | | |
|--|----------------------------------|
| <p>18.30 Registration
 Welcome & informal drinks
 <i>David Weller, Chair of executive board Ca-PRI</i></p> | <p>College Bar</p> |
| <p>19.30 Executive meeting & dinner
 Students dinner organised by Cambridge students</p> | <p>TBA
TBA</p> |

Monday 15th April

Cripps Court, Magdalene College, Cambridge

- | | |
|---|-------------------------------------|
| <p>08.30 Coffee and Registration</p> | <p>The Gallery</p> |
| <p>09.00 Welcome
 <i>Fiona Walter & Jon Emery, local hosts, University of Cambridge</i>
 <i>David Weller, Chair of executive board Ca-PRI</i></p> | <p>The Auditorium</p> |
| <p>Plenaries: Personalising care along the cancer journey
 Chair: David Weller</p> | <p>The Auditorium</p> |
| <p>09.10 Personalising care: implications of genetic susceptibility
 <i>Prof Sir Bruce Ponder FRS, Emeritus Professor & Head, University Department of Oncology, University of Cambridge</i></p> | |
| <p>09.40 Personalising care: follow-up care and survivorship
 <i>Prof Clare Wilkinson, Professor of General Practice, Director of Research North Wales Clinical School, & Chair of NCRI Primary Care Clinical Studies Group</i></p> | |
| <p>10.10 Discussion</p> | |
| <p>10.30 Coffee & informal networking time</p> | <p>The Gallery</p> |
| <p>11.15 Oral presentations in parallel sessions</p> <p>Session 1: Early diagnosis
 Chair: Peter Vedsted, Denmark</p> <p>O-01: Do symptoms of operable and inoperable lung cancer differ?: An interview study of symptoms experienced by patients awaiting lung cancer resection
 <i>Lucy Brindle, University of Southampton, UK</i></p> | <p>Cripps Meeting Room 3</p> |

O-02: Factors associated with later presentation and later stage at diagnosis of lung cancer: early results from a prospective cohort
Fiona Walter, University of Cambridge, UK

O-03: Experience of symptoms potentially indicative of gynaecological cancers in UK women
Emma Low, University College London, UK
Cancer Research UK Student Travel Award

O-04: The acceptability of a gynaecological cancer information leaflet in general practice
Alice Simon, City University London, UK

Session 2: Cancer care
Chair: Jeff Sisler, Canada

**Cripps
Meeting
Room 4**

O-05: Perception of continuity of care in patients newly diagnosed with lung cancer and their family physician
Michele Aubin, Université Laval, Canada

O-06: Are there age disparities in presentation, diagnosis pathway and treatment of colorectal patients?
Magdalena Esteva, Majorca, Spain

O-07: Variation in patient experience of 'integrated care' for cancer
Catherine Saunders, University of Cambridge, UK

O-08: How do Danish cancer patients perceive the performance of their GP's?
Soren Laursen, Danish Cancer Society, Denmark

Session 3: Survivorship
Chair: Clare Wilkinson, UK

**Cripps
Meeting
Room 5**

O-09: The impact of geography on the experiences of young adult cancer survivors
Bo Miedema, Dalhousie University, Canada

O-10: Evolution in loneliness and quality of life in older versus younger cancer patients
Laura Deckx, KU Leuven, Belgium

O-11: Long-term follow-up for cardiovascular disease after chemotherapy and/or radiotherapy for breast cancer in an unselected population
Liselotte Boerman, University of Groningen, Netherlands

	O-12: Characteristics of high health care users among childhood, adolescent and young adult cancer survivors <i>Mary McBride, BC Cancer Agency, Canada</i>	
12.15	Plenary: oral presentation session for 'Best Abstracts' Chair: Richard Neal, UK	The Auditorium
	O-13: Cancer-related gut feelings among Dutch general practitioners <i>Gé Donker, NIVEL, Netherlands</i> <i>Cancer Research UK Postdoc Travel Award</i>	
	O-14: Does having a melanoma excised in primary care lead to poorer outcomes? <i>Peter Murchie, University of Aberdeen, UK</i>	
	O-15: Partners of cancer patients have increased primary health care use for somatic and psychosocial problems <i>Marianne Heins, NIVEL, Netherlands</i>	
13.00	Lunch	The Gallery
14.00	Workshops	
	W-1: International collaborative research to improve cancer screening <i>Christine Campbell, University of Edinburgh, UK</i> <i>Carrie Klabunde, National Cancer Institute, USA</i> <i>Stephen Taplin, National Cancer Institute, USA</i> <i>David Weller, University of Edinburgh, UK</i>	Cripps Meeting Room 4
	W-2: Contributions and challenges of qualitative approaches to primary care cancer research <i>Rikke Sand Andersen, Aarhus University, Denmark</i> <i>Linda Birt, University of Cambridge, UK</i>	Cripps Meeting Room 3
	W-3: Workshop on international policy initiatives on early cancer diagnosis in primary care <i>Jon Emery, Universities of Western Australia, Melbourne and Cambridge</i> <i>Greg Rubin, Durham University, UK</i> <i>Georgios Lyratzopoulos, University of Cambridge, UK</i> <i>Peter Vedsted, Aarhus University, Denmark</i> <i>Jeff Sisler, CancerCare Manitoba, Canada</i>	Cripps Meeting Room 5
15.30	Tea	The Gallery
15.45	Oral presentations in parallel sessions	Cripps Meeting

Session 4: Symptom appraisal

Chair: Fiona Walter, UK

Room 3

O-16: Cancer symptom appraisal in everyday life: a community-based qualitative interview study

Katriina Whitaker, University College London, UK

Cancer Research UK Postdoc Travel Award

O-17: How does the thought of cancer arise during a consultation?

May-Lill Johansen, University of Tromsø, Norway

O-18: Missing early presentations of cancer: effects of an alternative explanation and disease prevalence

Olga Kostopoulou, King's College London, UK

Session 5: Diagnosis and follow-up

Chair: Christine Campbell, UK

**Cripps
Meeting
Room 4**

O-19: Clinical features of myeloma in primary care

Willie Hamilton, University of Exeter, UK

O-20: Quality deviations during the diagnostic pathway for Danish cancer patients as assessed by the GP and the patient - prevalence, types and agreement

Henry Jensen, Aarhus University, Denmark

O-21: Who's doing what? The role of physician specialties in colorectal cancer follow-up care in Manitoba, Canada

Jeff Sisler, University of Manitoba, Canada

Session 6: Database studies

Chair: Steve Taplin, USA

**Cripps
Meeting
Room 5**

O-22: Development of methods to evaluate the pre-diagnostic breast cancer patient trajectory linking existing population-level databases

Marcy Winget, Cancer Care, Alberta Health Services, Canada

O-23: Variation in use of the 2-week referral pathway for suspected cancer

David Meechan, Trent Cancer Registry, UK

O-24: Factors associated with the length of the peri-diagnostic encounter leading to an oral cavity cancer diagnosis: demonstration of a new approach using administration data

Patti Groome, Queen's University, Canada

16.30 Plenary **The Auditorium**
Chair: Greg Rubin, UK

Cancer registry data - what do you really need?
Dr Jem Rashbass, Eastern Cancer Registry and Information Centre, National Director for Disease Registers in Public Health England

Social programme
Jesus College, Cambridge

17.00- Free time

18.30 *Opportunity for guided walking and running tours....*

18.30 A short RECITAL by the CHORISTERS OF JESUS COLLEGE, CAMBRIDGE **Chapel**
and Mr Mark Williams, Director of Music*

19.00 RECEPTION in the Upper Hall* **Upper Hall**

19.45 DINNER in the Great Hall* **Great Hall**
with a short Welcome from Prof Sir Bruce Ponder, Fellow of Jesus College,
Cambridge

** By kind permission of the Master and Fellows of Jesus College, Cambridge*

Tuesday 15th April
Cripps Court, Magdalene College, Cambridge

- 08.30 Plenaries: New approaches to early diagnosis and quality of care**
Chair: Kurt Stange, USA **The Auditorium**
- New diagnostic approaches for primary care
Prof Rebecca Fitzgerald, MRC Cancer Cell Unit, University of Cambridge, UK
- 09.00** What do we know about improving quality of care? Is it relevant to primary care for cancer?
Prof Martin Roland, Professor of Health Services Research, University of Cambridge, UK
- 09.30 Discussion**
- 09.50 Coffee** **The Gallery**
Informal networking time with poster viewing **Orangery & East Room**
- 10.30 Electronic posters** **The Auditorium**
Chair: Peter Vedsted, Denmark
- P-01: Patients' preferences for post-treatment breast cancer follow-up in primary care versus secondary care: a qualitative survey
Annette Berendsen, University of Groningen, Netherlands
- P-02: Interviews with primary care teams in Lancashire and South Cumbria
Neil Cook, University of Central Lancashire, UK
- P-03: Use of electronic communication media to enhance cancer screening in primary care
Alan Katz, University of Manitoba, Canada
- P-04: The role of primary care in the management of teenagers and young adults with cancer: a qualitative study
Matthew Ridd, University of Bristol, UK
- P-05: Does seeing the same general practitioner affect how quickly breast, colorectal or lung cancer are diagnosed?
Matthew Ridd, University of Bristol, UK
- P-06: Perceived delay in lung, colorectal, breast and prostate cancer diagnosis: analysis of data from the national GP audit
Christina Dobson, Durham University, UK
Cancer Research UK Student Travel Award

P-07: Development of the Find Cancer Early community education campaign in regional Western Australia

Victoria Gray, The University of Western Australia, Australia

P-08: The GP's role in advising cancer patients about Complementary and Alternative Medicine

Corina Guethlin, Goethe-University Frankfurt, Germany

P-09: Development and implementation of a mobile application (app) to support patients during shared-care follow-up after testicular cancer.

Hink Boer, University of Groningen, Netherlands

P-10: Quality of GP-care as perceived by cancer patients in different phases of illness

Petra Hopman, NIVEL, Netherlands

P-11: 'I deal with the small things'. The doctor-patient relationship and professional identity in GPs stories of cancer care

May-Lill Johansen, University of Tromsø, Norway

P-12: Family physicians' (FPs) views on Survivorship Care Plans (SCPs) as tools to support follow-up of breast cancer patients

Mary Ann O'Brian, University of Toronto, Canada

P-13: Developing and implementing a primary care practice based curriculum for cancer survivorship

Linda Overholser, University of Colorado, USA

P-14: Emotions: do they have a role in medical help-seeking for symptoms suggestive of cancer? A systematic literature review

Chantal Smeekens, University of Cambridge, UK

11.15 Paper posters in guided small group tours

Leaders: Michele Aubin, Canada; Carrie Klabunde, USA; Peter Murchie, UK; Marie Pirotta, Australia

Orangery & East Room

P-15: GP and practice determinants of safety netting in cancer diagnosis: findings from the International Cancer Benchmarking Partnership (ICBP) Module 3 for Wales

Adrian Bellwood, Bangor University, UK

P-16: Prevalences of potential lung cancer symptoms stratified by common comorbidities in GP-referred chest-X-ray attendees: implications for improving earlier diagnosis

Lucy Brindle, University of Southampton, UK

P-17: "Keep it short and simple": GPs' pragmatic needs for inter-provider

information exchange

Anne Dahlhaus, Goethe-University Frankfurt, Germany

P-18: Routes to diagnosis of lung cancer in Denmark

Louise Guldbrandt, Aarhus University, Denmark

Cancer Research UK Student Travel Award

P-19: Changes in the cancer screening system in Japan

Chisato Hamashima, National Cancer Centre, Japan

P-20: Systematic needs assessment of cancer patients in primary care based on a new web-based patient questionnaire

Dorta Gilså Hansen, University of Southern Denmark, Denmark

P-21: Alarm symptoms of cancer and healthcare-seeking behaviour. A population-based, cross-sectional study

Dorte Ejg Jarbøl, University of Southern Denmark, Denmark

P-22: Quality deviations during the diagnostic pathway for Danish cancer patients assessed by their GPs- prevalence and type and association with diagnostic time interval

Henry Jensen, Aarhus University, Denmark

P-23: Distance to screening site and participation in screening for breast cancer – a population-based study

Line Flytkjær Jensen, Aarhus University, Denmark

P-24: A study of primary care consultations preceding referral and diagnosis of cancer

Nadia Llanwarne, University of Cambridge, UK

P-25: Domiciliary care and primary caregivers of patients with terminal cancer

Joan Llobera, Majorca, Spain

P-26: Comparing future strategies for medical oncology management in New Zealand and the Netherlands

Jiska Meijer, University Medical Center Groningen, Netherlands

P-27: Using calendar landmarking instruments may aid patient recall of cancer symptom time intervals from onset to diagnosis

Katie Mills, University of Cambridge, UK

P-28: Impact on patterns of urgent referral for suspected cancer of a national early diagnosis initiative in primary care

Greg Rubin, Durham University, UK

P-29: Unbearable suffering studied in end-of-life cancer in Dutch primary care

Cees Ruijs, VU University Medical Centre, Amsterdam, Netherlands

P-30: Symptomatic diagnosis of lung cancer: a systematic review

Joanna Shim, University of Southampton, UK

P-31: To what extent does prevention explain the paradox of primary care?

Kurt Stange, Case Western Reserve University, USA

P-32: The effect of continuing medical education (CME) on cancer risk assessment skills in Danish general practice

Berit Skjoedeberg Toftegaard, Aarhus University, Denmark

P-33: Why do some patients present with thicker melanomas? A qualitative exploration of patients' symptom detection and help-seeking decisions.

Linda Birt, University of Cambridge, UK

12.00 Oral presentations in parallel sessions

Session 7: Early diagnosis

Chair: Knut Holtedahl, Norway

**Cripps
Meeting
Room 3**

O-25: Should GPs investigate or refer for lower-risk cancer symptoms, and does it matter?

Richard Neal, Bangor University, UK

O-26: Delay in cancer diagnosis and primary healthcare

Dominique Tremblay, University, Canada

O-27: Cancer suspicion in general practice: the role symptoms and patients characteristics and relationships with subsequent cancer

Benedicte Scheel, University of Tromsø, Norway

O-28: Patient views on being referred for diagnostic testing for cancer – a vignette based survey

Jon Banks, University of Bristol, UK

Session 8: Inequalities & cancer diagnosis

Chair: Peter Rose

**Cripps
Meeting
Room 5**

O-29: Ethnic inequality in cancer diagnosis

Taminola Martins, Exeter University, UK

O-30: General practitioners' suspicion of cancer and other serious diseases: implications for future diagnosis and use of healthcare services

Peter Hjertholm, Aarhus University, Denmark

O-31: Cultural explanatory model for cervical cancer: the implications for health seeking and treatment outcome in Uganda
Amos Deogratus Mwaka, Makerere University, Uganda

O-32: Gender inequalities in promptness of diagnosis of bladder and renal cancer: secondary analysis of national audit data
Georgios Lyratzopoulos, University of Cambridge, UK

Session 9: Primary care trials and complex interventions
Chair: Bo Miedema, Canada

**Cripps
Meeting
Room 4**

O-33: Developing a community-based complex intervention to improve quality of life in people with colorectal cancer: evidence, theory and acceptability
Nicola Gray, University of Aberdeen, UK

O-34: Effectiveness and cost-effectiveness of dermoscopy in primary care: a cluster randomised clinical trial
Cecile Koelink, University of Groningen, Netherlands

O-35: The ProCare Trial: a phase II randomised controlled trial of shared care for men with prostate cancer
Jon Emery, University of Western Australia, Australia

13.00 Lunch

The Gallery

14.00 Ca-PRI welcomes NAEDI: introductions
David Weller, Chair of executive board Ca-PRI

**The
Auditorium**

14.05 Overview & update of primary care NAEDI studies
Dr Sara Hiom, Director of Early Diagnosis & Patient Engagement, Cancer Research UK

14.30 International Cancer Benchmarking Partnership
Chair: Willie Hamilton, UK

**The
Auditorium**

ICBP 2: Public awareness and attitudes
Prof Jane Wardle, University College London, UK

ICBP Module 3: Factors in primary care that might affect international differences in cancer survival
Dr Peter Rose, University of Oxford, UK

ICBP Module 4: Time intervals from first symptom to treatment
Prof Peter Vedsted, Aarhus University, Denmark
Prof David Weller, University of Edinburgh, UK

Discussion

15.30 **Tea** **The Gallery**

15.45 **International Ca-PRI studies** **The Auditorium**
Chair: Jon Emery, Australia

Preliminary results from the CRC collaboration: associations between primary care interval and tumour staging

Dr Marie Louise Tørring, Aarhus University, Denmark

Prof Greg Rubin, Durham University, UK

The Rural Cancer Initiative: a factorial trial of a complex intervention to reduce the diagnostic interval in rural cancer patients in Western Australia

Victoria Gray, University of Western Australia, Australia

Discussion

16.30 **Presentation by Ca-PRI 2014 organisers** **The Auditorium**
Jeff Sisler, University of Manitoba, Canada

Closing session

David Weller, Chair of executive board Ca-PRI

Social programme

17.00 **Punting:** Organised from Scudamores, Magdalene Bridge

18.30 **Cash Bar in Jesus College Bar** **College Bar**

20.00 Own arrangements for dinner
