Postgraduate Opportunities 2020

History, Classics & Archaeology

Influencing the world since 1583
“Edinburgh isn’t so much a city, more a way of life … I doubt I’ll ever tire of exploring Edinburgh, on foot or in print.”

Ian Rankin
Best-selling author and alumnus
Influencing the world since 1583

For more than 400 years the University of Edinburgh has been changing the world. Our staff and students have explored space, won Nobel Prizes and revolutionised surgery. They’ve published era defining books, run the country, made life saving breakthroughs and laid the foundations to solve the mysteries of the universe.

Our distinguished alumni include NASA astronaut Piers Sellers, former MI5 Director General Dame Stella Rimington, Olympians Sir Chris Hoy and Dame Katherine Grainger, and historical greats such as philosopher David Hume, suffragist Chrysta Macmillan, who founded the Women’s International League for Peace and Freedom, and physicist and mathematician James Clerk Maxwell.

International collaboration
An internationally renowned centre for academic excellence, we forge world class collaborations with partners such as the California Institute of Technology (Caltech), Stanford University, the University of Melbourne, Peking University, the University of Delhi and the University of KwaZulu Natal. As a member of the League of European Research Universities and the Coimbra Group, we link up with leading institutions across Europe.

Linking research and commerce
We were one of the first UK universities to develop commercial links with industry, government and the professions. Edinburgh Innovations promotes and commercialises our research excellence and can assist you in taking the first step to market, through collaborative research, licensing technology or consultancy.

Enhancing your career
We are committed to embedding employability in your University experience and have an impressive track record for graduate employment. From volunteering schemes to our sector leading careers service, we provide you with opportunities to develop your skills, knowledge and experience, giving you an edge in the competitive job market.

TOP 50
We’re consistently ranked one of the top 50 universities in the world. We’re 20th in the 2020 QS World University Rankings.

4TH
We’re ranked fourth in the UK for research power, based on the 2014 Research Excellence Framework.*

83%
The majority of our research – 83 per cent – is considered world leading or internationally excellent.*

TOP 100
We are ranked in the top 10 in the UK and in the top 100 in the world for the employability of our graduates.†

£403m
In 2017/18 we won £403 million in competitive research grants.

19
There are 19 Nobel Prize winners who are alumni of the University or have been members of academic staff here.

22ND
We’re ranked 22nd in the world’s most international universities.‡ Since 2010, we have taught students from more than 160 countries.

* Times Higher Education, Overall Ranking of Institutions
† Times Higher Education, Global Employability University Ranking 2018

American History

MSc 1 yr FT (2 yrs available for UK/EU students)

Programme description

This programme allows you to explore American history in the sense of the whole hemisphere of the Americas. You will take a comparative or transnational approach to the history of the Americas, and will be able to study some countries and regions in more depth. Our exceptional range of historians of the United States, Latin America and the Caribbean, allows us to provide courses and research supervision on an array of topics and time periods, from the American Revolution to comparative slavery, from the Latin American dictatorships to US Cold War foreign policy. You’ll take various seminar-style courses while developing your own research project in consultation with our internationally-respected historians. This MSc provides advanced knowledge and understanding of American history and enhanced skills in independent research, critical analysis, oral and written presentation. You are encouraged to take part in a vibrant research culture including lectures, seminars and events with leading UK and international historians. Our strengths are complemented by the impressive resources of the University’s Main Library and the National Library of Scotland, which boasts one of the UK’s largest collections for Caribbean, Latin American and US history.

Programme structure

You’ll take two semesters of small-group seminar-style courses then apply your independent research skills to your supervised dissertation. Be creative; our broad expertise means we’re open to almost any interest.

COMPULSORY AND OPTION COURSES:

You will complete three compulsory courses and select a further three options from a wide range on offer. Please visit the programme website for more detailed information on the courses typically available.

Career opportunities

Our students view the programme and a graduate degree from Edinburgh as an advanced qualification valued and respected by many employers. Others are interested in pursuing long-term academic careers and therefore consider the MSc as preparation for a PhD. The combination of specialised skills training courses and seminars, and the opportunity for independent research provides you with transferable skills that will be beneficial wherever path you choose. Graduates pursue work in related areas such as museums, policy think tanks, national and international civil services, non-governmental organisations, galleries, libraries and historic trusts, whilst others build on the transferable skills gained and enter areas as diverse as business, media, public administration and marketing.

Entry requirements

A UK 2:1 honours degree or other international equivalent (www.ed.ac.uk/international/graduate-entry), in a subject related to this programme. Relevant experience or professional, or other, qualifications will also be considered.

English language requirements

See page 28.

Fees and funding

For fees see page 28 and for funding information see page 30.

Contemporary History

MSc 1 yr FT (2 yrs available for UK/EU students)

Programme description

Has the end of the Cold War created a new world order? Has the fall of the Berlin Wall inaugurated a new Europe? Has 9/11 changed our world and the character of our democracies forever? Are we facing a ‘clash of cultures’ in the Middle East? Is American power declining and being replaced by new players on the world stage? This MSc allows you to explore such questions critically and analytically while discovering how the recent past shaped the modern world.

You will gain a comprehensive understanding of the increasingly global experience of humankind in the twentieth and twenty-first centuries. A specialised methodological and historiographical course will help you appreciate the distinctiveness of contemporary history; its use of radio, television, film, and internet-based sources such as Wikileaks, and its methodology. This rigorous skills training will be supplemented by a variety of topical, specialised options, covering virtually every distinctive approach to history (e.g. political, social and economic) and every region on the globe, underlining the increasing globalisation of our recent past. The MSc makes use of Edinburgh’s unique archival and bibliographical resources – the National Archives of Scotland, the National Library of Scotland, the University’s library and archives – and is enriched by the city’s key role in current British politics. Additionally, with our close association to the Centre for the Study of Modern and Contemporary History, Edinburgh is a wonderful environment for contemporary scholarship.

Programme structure

The programme combines methodological and substantive courses with intensive student participation. The analysis of diverse primary source material is essential, as is situating research findings within an established historiographical tradition. You will also complete a dissertation.

COMPULSORY AND OPTION COURSES:

You will complete three compulsory courses and select a further three options from a wide range on offer. Please visit the programme website for more detailed information on the courses typically available.

Career opportunities

This is an advanced qualification, valued and respected by employers and also suitable as preparation for a PhD and a long-term academic career. The combination of skills training, specialised seminars and independent research provides you with transferable skills that will be beneficial wherever path you choose. Graduates work in related areas such as museums, policy think tanks, national and international civil services, non-governmental organisations, galleries, libraries and historic trusts. Others enter business, media, public administration or marketing.

Entry requirements

A UK 2:1 honours degree or other international equivalent (www.ed.ac.uk/international/graduate-entry), in a subject related to this programme.

English language requirements

See page 28.

Fees and funding

For fees see page 28 and for funding information see page 30.

Email emily.brownell@ed.ac.uk
**Programme description**
This comprehensive programme allows you to take full advantage of the breadth of our research expertise. We'll help you to develop a specialised knowledge and understanding of history and its central issues, examine historical sources, evaluate existing research, and work towards a specialised research project of your own.

**Entry requirements**
You will take a variety of seminar-style courses in small groups. Most courses are assessed by means of an extended piece of written work, while some courses may also assess non-written skills. You will then complete an independent research dissertation and will be assigned a supervisor from the outset.

**COMPULSORY AND OPTION COURSES:**
You will complete two compulsory courses and select a further four options from a wide range on offer. Please visit the programme website for more detailed information on the courses typically available.

**Career opportunities**
Our students view the programme and a graduate degree from Edinburgh as an advanced qualification valued and respected by many employers. Some students are interested in pursuing long-term academic careers and therefore consider the MSc as preparation for a PhD. The combination of skills training courses, specialised seminars, and independent research provides you with transferable skills that will be beneficial whatever path you choose. Graduates pursue work in related areas such as museums, policy think tanks, national and international civil services, non-governmental organisations, galleries, libraries and historic trusts while others build on the transferable skills gained and enter areas as diverse as business, media, public administration and marketing.

**COMPULSORY AND OPTION COURSES:**
You will complete two compulsory courses and select a further four options from a wide range on offer. Please visit the programme website for more detailed information on the courses typically available.

**Programme description**
This innovative online programme allows you to take advantage of Edinburgh's remarkable range of historical expertise from the comfort of your own home. Thanks to our learning tools and extensive digital resources, you can gain a world-class postgraduate qualification without the expense of relocating. Our flexible structure allows you to fit your studies around work or family commitments and to develop your own specialised interests under the expert guidance of experienced academics. The thematic breadth of this programme means you can choose from a diverse range of topics and you will be able to further your own specialised interests through the dissertation.

**Programme structure**
This programme can be taken at your own pace and can be completed in a period of between one and six years. You can exit the programme at any stage with the qualification you have earned which is determined by the number of credits successfully achieved at the required level. You will be examined through a combination of coursework and discussion forum tasks, source reviews, article reviews or oral presentations. To complete the MSc you will undertake independent research in the form of a supervised dissertation. Many students balance their studies alongside other commitments and the programme’s flexible structure supports this, allowing part time students to take up to five years to complete.

**Professional qualifications**
A UK 2:1 honours degree or other international equivalent (www.ed.ac.uk/international/graduate-entry), in a subject related to this programme, normally history. Further details can be found on the programme website.

**Language requirements**
See page 28.

**Fees and funding**
For fees see page 28 and for funding information see page 30.

**Programme description**
Idea is patterns of thought always have been, and continue to be, subject to historical change. The ways in which they change, and the reasons why they do so, make for fascinating study. In this comprehensive programme, you’ll be introduced to the principal methodologies of intellectual history. You will also have the opportunity to explore particular themes in intellectual history, developing a detailed understanding of their origins, historical circumstances and implications. By the end of the programme you will have the tools to develop an appropriate interdisciplinary examination of the interdependence of text and context and the importance of ideas in past and present, as well as the ability to research effectively and present your work with confidence.

**Programme structure**
You will take a variety of seminar style courses in small groups. Most courses are assessed by means of an extended piece of written work, while some courses may also assess non-written skills. You will then complete an independent research dissertation and will be assigned a supervisor from the outset.

Scottish History

MSc 1 yr FT (2 yrs PT available for UK/EU students)

Programme description
Taught by one of the largest groups of specialist Scottish historians found at any university, this programme is world leading. It offers an unrivalled range of courses that explore Scotland’s past across a broad period – from the early medieval period to contemporary developments – and Scotland’s place in a comparative and global context. The original specification of Scots history’s past has been at the centre of history teaching at the University since the Sir William Fraser Chair of Scottish History and Palaeography was established in 1901. You’ll have access to some of the most impressive archival collections in the UK, including our Centre for Research Collections and the nationally significant collections held by the National Library of Scotland and the National Records of Scotland, both of which are nearby.

Programme structure
You will take a variety of seminar style courses in small groups. Most courses are assessed by means of an extended piece of written work, while some courses may also assess non-written skills. You will then complete an independent research dissertation and will be assigned a supervisor from the outset.

Programme Director
Dr Alasdair Raffe

COMPULSORY AND OPTION COURSES:
You will complete three compulsory courses and select a further three options from a wide range of subjects on offer. Please visit the programme website for more detailed information on the courses typically available.

Career opportunities
Our students view the programme and a graduate degree from Edinburgh as an advanced qualification valued and respected by many employers. Some students are interested in pursuing long-term academic careers and therefore consider the MSc as preparation for a PhD. The combination of skills training courses, specialised seminars, and independent research provides you with transferable skills that will be beneficial whatever path you choose. Graduate positions in related areas such as museums, policy think tanks, national and international civil services, non-governmental organisations, libraries, and human rights organisations are common, as are jobs in companies or organisations that have an international presence. In general, our students pursue work in areas such as education or public heritage. Recent graduates have pursued careers as scholars, writers, editors, and civil servants.

Entry requirements
A UK 2:1 honours degree or other international equivalent (www.ed.ac.uk/international/graduate-entry), in History or another humanities or social science subject with a significant historical component (not necessarily Scottish).

English language requirements
See page 28.

Fees and funding

Ancient History

MSc 1 yr FT (2 yrs PT available for UK/EU students)

Programme description
This programme gives you the opportunity to study ancient history at an advanced level, developing an interest in the ancient world and providing an excellent preparation for further graduate research. Edinburgh is one of the leading centres in the UK for the study of ancient history, due to the extensive, geographical and methodological scope of the research interests of our staff. The range and content of our courses reflect staff research strengths in Greek, Hellenistic, Roman and Late Antiquity topics. Greek and Latin language courses are always offered. Our particular strengths lie in the legal, institutional, socially significant economic history of the Greek and Roman worlds, as well as in political theory and practice, Hellenistic history, and late antique history. As a student on this programme, you will develop your skills in critical thinking, clear writing and research, verbal presentation and critical presentations.

Programme structure
Most teaching takes place in small-group seminars and the programme is designed to allow both breadth of coverage and specialisation. The specialist compulsory course will provide you with the key methodological and practical skills required of researchers in all classical subjects, while the options offer a large degree of flexibility, allowing you to develop or consolidate your language skills and explore a diverse range of historical topics in depth. Independent research, in the form of a dissertation, forms a substantial component of the programme, challenging you to build on the material and approaches covered in the taught courses and develop your research skills.

COMPULSORY AND OPTION COURSES:
You will complete one compulsory course and select a further three skills courses and an additional two options from a wide range on offer. Please visit the programme website for more detailed information on the courses typically available.

Career opportunities
Our students view the programme and a graduate degree from Edinburgh as an advanced qualification valued and respected by many employers. Some students are interested in pursuing long-term academic careers and therefore consider the MSc as preparation for a PhD. The programme provides a toolkit of transferable skills in organisation, research and analysis that will be highly prized in any field of work. The programme can form the stepping stone to many career options, such as further academic research, law, museum and art curation, literary translation or analysis, education or public heritage. Recent graduates in Classics are now putting their skills to use as tutors, archivists, writers, editors and civil servants.

Entry requirements
A UK 2:1 honours degree or other international equivalent (www.ed.ac.uk/international/graduate-entry), in History or another humanities or social science subject with a significant historical component (not necessarily Scottish). Relevant experience or professional, work-related or branch into related or different fields, while maintaining a lifelong interest in the ancient world.

Classical Art & Archaeology

MSc 1 yr FT (2 yrs PT available for UK/EU students)

Programme description
This programme studies the ancient Greek and Roman worlds from the Iron Age to the late Roman and Early Christian periods through their material remains including sculpture, funerary art, topography and visual cultures. Focusing on the ancient Mediterranean world, broadly defined, you’ll explore not only the archaeology of Greece and Rome but also the Near East and north-western Europe. Through our interdisciplinary approach, you’ll also be able to work with staff from all areas of the School. Several members of classics have ongoing excavations in Italy, Georgia and Macedonia, which students are welcome to attend. The programme aims to familiarise you with the various methods used in the study of classics, enabling you to work in a manner that is theoretically and methodologically engaged.

Programme structure
We offer a range of courses, which has been designed to reflect the research interests of our lecturers and help you develop a particular topic of interest for your dissertation.

COMPULSORY AND OPTION COURSES:
You will complete one compulsory course and select a further three skills courses and an additional two options from a wide range on offer. Please visit the programme website for more detailed information on the courses typically available.

Career opportunities
Our students view the programme and a graduate degree from Edinburgh as an advanced qualification valued and respected by many employers. Classics

MSc 1 yr FT (2 yrs PT available for UK/EU students)

Programme description
This programme will give you the opportunity to study specific periods and regions of classical civilisation, analyse the literary significance of texts, and develop your language skills in Greek and Latin. Drawing on the diverse interests of our academic staff (which number more than 20 in this area), the programme content is highly flexible, allowing you to choose a specialised path or a more interdisciplinary approach. We have specialists in the central areas of Greek and Latin literature and thought, Greek and Roman history, and Classical art and archaeology. We also take a broad view of the discipline with, for example, expertise in late antiquity, and reception history. We provide opportunities for you to hear from distinguished speakers in the weekly classics research seminar series and to share your research with your peers at the classics graduate seminar. Studying classics in Edinburgh is the perfect marriage known as the Athens of the North, Edinburgh is a stunningly beautiful city with a worldwide reputation as a cultural and academic capital.

Programme structure
The modular structure of the programme allows you to concentrate on areas of particular interest while still providing breadth of coverage. Your required course in classics research methods and skills equips you with the independent skills you need to complete your dissertation.

COMPULSORY AND OPTION COURSES:
You will complete one compulsory course and select a further three skills courses and an additional two options from a wide range on offer. Please visit the programme website for more detailed information on the courses typically available.

Late Antique, Islamic & Byzantine Studies

MSc 1 yr FT (2 yrs PT available for UK/EU students)

Programme description
The end of classical antiquity in the Mediterranean and the Middle East witnessed the formation of politics, institutions and ideologies which define and continue to influence our world to the present day. By combining a diverse, yet cognate range of research interests, this programme offers an exceptional selection of linguistic and disciplinary expertise in the study of the late antique, Islamic and Byzantine worlds, embracing archaeology, art history, history, languages and literatures, and auxiliary disciplines such as paleography, numismatics, and sigillography. It presently provides training in the following source languages: Greek, Latin, Arabic, and/or Hebrew.

This programme provides you with excellent preparation for graduate research in historical, archaeological, literary or art-historical topics focusing on the Mediterranean and western Asia in late antiquity and the early middle ages, as well as on the entire span of Byzantine history. You will have access to the expertise of academics who are all passionate about their area of study. Drawn from several schools across the University and brought together in the Centre for Medieval and Renaissance Studies, the team comprises specialists in the various branches of late antique, Islamic and Byzantine studies.

Programme structure
The MSc comprises seminars, language classes and tutorials, which will include seminar discussion and debate, presentation to peers, and directed and independent reading, as well as interactive language teaching.

COMPULSORY AND OPTION COURSES:
You will complete one compulsory course and select a further two language courses and an additional three options from a wide range on offer. Please visit the programme website for more detailed information on the courses typically available.

Career opportunities

Archeology programmes
www.ed.ac.uk/pg/34

Archeology

MSc 1 yr FT (2 yrs PT available for UK/EU students)

Programme description
This programme is taught by experts and specialists in fields such as European, Mediterranean, science-based and theoretical archeology. It offers a range of courses and allows you to tailor your studies to suit your interests and take advantage of the experience of our staff, and those in related programmes in history, classics and geography. You will develop an in-depth understanding of archeology and its links with the historical, social and natural sciences, as well as the practice of archeology within and outside an academic setting, incorporating skills and training. The programme prepares you for a professional role in archeology or further study at doctoral level. We have excellent facilities: dedicated study space, archaeological and computing laboratories, and teaching and reference collections. Edinburgh is ideal for archeological study and research, allowing you to benefit from the presence of national and local institutions and heritage agencies, such as the excellent archeological collections of the National Museum of Scotland, the archival and bibliographic resources of Historic Environment Scotland, and the presence of staff in several archeological companies.

Programme structure
Our wide-ranging programme encompasses theory, methodology and practice. You will undertake a varied schedule of learning, including lectures, seminars, practicals, and individual supervisions. We help you to develop your research interests and choose a suitable dissertation topic.

COMPULSORY AND OPTION COURSES:
You will complete two compulsory courses and select a further four options from a wide range on offer. Please visit the programme website for more detailed information on the courses typically available.

Career opportunities
Archeology graduates can follow a variety of career options. The programme equips you to go on to advanced study, and also provides a solid foundation for a career. You will gain practical as well as academic experience, teamwork and analytical skills, and will be able to work in a variety of contexts. Examples of career paths available to archeology graduates (although some may require additional training) include: higher education, heritage management and agencies, commercial archeology, teaching, tourism industry, broadcasting and the police. An archeology degree does not restrict you to a career in archeology.

Entry requirements
A UK 2:1 honours degree or other international equivalent (www.ed.ac.uk/internationalgraduate-entry), in a subject related to this programme, preferably archeology or classical archeology, or another degree or combined degree in which archeology figures prominently (such as anthropology in the case of applicants from the USA). Relevant experience or professional, or other, qualifications will also be considered.

English language requirements

Human Osteoarchaeology

**Programme description**

Human skeletal remains are the most direct evidence of past lifeways and their scientific investigation gives unique insights into human history. Bioarchaeology (the study of archaeological human remains) is an exciting field that draws on a variety of techniques, ranging from visual examination of the whole skeleton to the biomolecular analysis of small bone samples. Demographic shifts, environmental changes, migrations, the spread of diseases and the impact of violence and conflict all leave traces on the skeleton. This MSc provides the skills required to understand skeletal biographies and interpret them in their cultural context at the individual and the population level. Combining theoretical learning with hands-on practice, we will provide you with the theoretical knowledge and practical skills essential to your handling and analysis of specimens recovered from archaeological sites.

**Programme structure**

Throughout the programme, you’ll take part in lectures, seminars and practical work with archaeological skeletal assemblages and reference collections. Drawing on Edinburgh’s long history in the study of the human body, you will also have the opportunity to visit Surgeon’s Hall Museum and the University’s anatomy department, which provide unique collections of pathological and anatomical study specimens. You will be assessed through reports, lab exams, oral and poster presentations, and essays. You will also submit a dissertation on a research topic of your choosing. Past dissertations have ranged from experimental projects on violence in prehistory to dietary studies of Chalcolithic Turkey, and considerations of disease and impairment in post-medieval England.

**COMPULSORY AND OPTION COURSES:**

You will complete six compulsory courses and select one further option from a range of courses on offer. Please visit the programme website for more detailed information on the courses typically available.

**Career opportunities**

Examples of career paths available to archaeology graduates (although some may require additional training) include: higher education, heritage management and agencies, commercial archaeology, teaching, tourism industry, and broadcasting. An archaeology degree does not restrict you to a career in archaeology. The programme also equips you to go on to advanced study and provides a solid foundation for a career. You will gain practical as well as academic experience, teamworking and analytical skills, and will be able to work in a variety of contexts. Examples of career paths available to archaeology graduates (although some may require additional training) include: higher education, heritage management and agencies, commercial archaeology, teaching, tourism industry, broadcasting and the police.

An archaeology degree does not restrict you to a career in archaeology.

**Entry requirements**

A UK 2:1 honours degree or other international equivalent (www.ed.ac.uk/international/graduate-entry). In a relevant subject, such as archaeology, anthropology, anatomy, medical sciences and related fields. No previous knowledge of human osteology is required. We will also consider relevant experience or professional, or other, qualifications.

**English language requirements**

See page 28.

**Fees and funding**

For fees see page 28 and for funding information see page 30.

**Programme Director**

---

Mediterranean Archaeology

**Programme description**

The area around the Mediterranean presents many opportunities for archaeological research. This MSc allows you to explore the region through the examination of periods, geographical areas and themes. You will be encouraged to make use of contemporary theoretical approaches, hone your skills in current methodologies and take advantage of the specialist fields and periods of study that our staff, and those in History and classics, can offer. You will develop an understanding of specific regions and periods, current theories, methodologies and major research issues, all of which provide the basis for a PhD or future participation in excavation, survey and/or lab work. Edinburgh is ideal for archaeological study and research, allowing you to benefit from national and local institutions and heritage agencies, such as the excellent collections of the National Museum of Scotland, the archival and bibliographic resources of Historic Environment Scotland, and the presence of staff in commercial companies.

**Programme structure**

You will take a variety of seminar-style courses in small groups while developing your own research project, in the form of the dissertation, on an approved subject of your choice.

**COMPULSORY AND OPTION COURSES:**

You will complete one compulsory course and select a further five options from a wide range on offer. Please visit the programme website for more detailed information on the courses typically available.

**Career opportunities**

This programme equips you to go on to advanced study and provides a solid foundation for a career. You will gain practical as well as academic experience, team working and analytical skills, and will be able to work in a variety of contexts. Examples of career paths available to archaeology graduates include: higher education, heritage management and agencies, commercial archaeology, teaching, tourism industry, broadcasting and the police.

An archaeology degree does not restrict you to a career in archaeology.

**Entry requirements**

A UK 2:1 honours degree or other international equivalent (www.ed.ac.uk/international/graduate-entry), in a subject related to this programme, preferably archaeology or classical archaeology, or another degree or combined degree in which archaeology figures prominently (such as anthropology in the case of applicants from the USA). Relevant experience or professional, or other, qualifications will also be considered.

**English language requirements**

See page 28.

**Fees and funding**

For fees see page 28 and for funding information see page 30.

Research at the School of History, Classics & Archaeology

We enjoy an active research culture across the three areas of history, classics and archaeology. As one of the world’s largest academic centres in this field, we have an active research culture and provide expertise in an extremely broad range of areas within each of the three disciplines.

Our research quality was validated in the Research Excellence Framework (REF) 2014. We had 83 per cent of our research in history and 67 per cent of our research in classics rated 4* world leading or 3* internationally excellent in the overall quality profile. In both areas we were ranked in the top five universities in the UK by power research [Research Fortnight REF 2014]. We host around 80 core researchers and many members of the School have strong public roles, recognised through a wide range of external funding, prizes and awards.

History

We are one of the largest and most vibrant communities of historians in the UK. More than 60 researchers, whose interests and expertise span millennia and an unusually broad range of methodologies, work with our postgraduate community across our Centre for the Study of Modern Contemporary History, Edinburgh Centre for Global History, research groups, and multiple seminars and workshops. History at Edinburgh is further enriched by its links to other disciplines within the University and to the city’s archives and museums and the National Library of Scotland.

Classics

Classics at Edinburgh is a large community, more than 35 strong, of teachers and researchers. It is distinctive for combining wide coverage of all the core areas of Greek and Roman (Latin, literature, history and archaeology with, on the one hand, a strong interdisciplinary focus and, on the other, an expansive outlook on the ancient world. We have research projects about, for example: Classics and cognitive science; Greek and modern notions of honour, respect and recognition; the role of earthen materials in Roman provincial architecture; and a comparative investigation of Byzantine palaeida and Tang/Song xue. We have strong research clusters on Late Antiquity, Byzantium and the Medieval Latin World.

Archaeology

Archaeology at Edinburgh has a dynamic, internationally recognised research profile. Geographically our research primarily covers Britain, Europe, the Near East and North Africa, with a broad chronological spread from the appearance of modern humans in Europe over 40,000 years ago to the post-medieval period. Our research community comprises 14 teaching staff and postdoctoral researchers, with more than 40 research postgraduate students who benefit from excellent research laboratories and teaching facilities. Our key research themes are: • Human-Environment Interactions • Society, Stratiﬁcation and Conﬂict • Life, Health and Death • European and Near Eastern Prehistory.

Research options

We offer two research programme types:

PhD

A PhD (doctor of philosophy) is a substantial piece of independent research which makes a contribution to existing knowledge in the field. A PhD takes three years full-time or six years part-time and is examined by thesis submission and oral examination. PhD students work closely with their supervisors, who are recognised experts in the field of study. All PhD students pursue an individually tailored programme of research training agreed with their supervisors. You will also be encouraged to share your research with other postgraduate students through workshops and seminars, and to take an active part in the research life of your subject, the School, and the University.

MSC by Research

Our master of science by research programmes combine research training with the opportunity to work on a substantial piece of supervised independent research in your chosen field.

Entry requirements

A UK 2:1 honours degree, US GPA 3.4 or other international equivalent (www.ed.ac.uk/international/graduate-entry) in a subject related to your programme. In some cases you will also require a relevant masters degree with a mark of at least 65 per cent in the dissertation and 65 per cent overall. Relevant experience or professional, or other, qualifications may also be considered. Please contact us to check before you apply.

Career opportunities

Recent graduates have used our research programmes as a springboard for careers in postdoctoral research or academia internationally. Others are now working in roles as diverse as osteoarchaeologist, recruitment consultant and policy analyst for organisations including Ipsos Mori, Amazon and Rubicon Heritage.

Research opportunities

www.ed.ac.uk/pg/53

Archaeology

PhD 3 yrs FT (6 yrs PT available for UK/EU students)

Research environment

We have a long and distinguished tradition of teaching, research and fieldwork in archaeology at Edinburgh, all of which are closely integrated. We have active research contacts with National Museums Scotland, the Scottish Universities Environmental Research Centre and Historic Environment Scotland.

Staff have internationally recognised expertise in the prehistory of Europe, the Mediterranean and Near East (including Egyptology), as well as in archaeological theory, environmental and landscape archaeology (including geographical information systems), osteoarchaeology, zooarchaeology and various aspects of science-based archaeology.

Focal areas of research include: bioarchaeology; zooarchaeology; human-animal-environment interactions; and the transition from hunter-gatherer to farming communities. Our research profile in classical and historical archaeology has also expanded in recent years. Our PhD students develop a highly valued set of research and professional skills which enable them to go on to a wide variety of careers including academia and in sectors such as museums and heritage, commercial or developer-funded archaeology, the civil service and teaching.

English language requirements

“The University of Edinburgh was a clear choice for me as it had a well-established archaeology department with access to good facilities, such as the labs, and staff members that had research areas which complemented my own and were approachable and willing to be my supervisors. Being in Edinburgh also provided access to other facilities such as the National Museum of Scotland and the National Library, which have been invaluable to my study.”

Lisa Brown, PhD Archaeology

The University of Edinburgh

History, Classics & Archaeology Postgraduate Opportunities 2020

The University of Edinburgh

Case study: Edinburgh’s research with impact

Revealing the lost architecture of the Roman Empire

When we think of Roman architecture, we tend to think of marble, brick, and concrete – rarely mud. However, various forms of earthen construction ( turf, rammed earth, cob and mudbrick) were mainstays of Roman construction around the Mediterranean and up into the north-western provinces. This is true especially of military structures (such as the Antonine Wall) but also of domestic buildings. Using innovative techniques, an interdisciplinary team of archaeologists, architectural historians, and engineers across the School of History, Classics & Archaeology and the School of Engineering is drawing new attention to the properties and uses of these overlooked materials.

Project background

The Earthen Empire project is funded by a three-year research project grant from the Leverhulme Trust and directed by Dr Ben Russell, a specialist in Roman architecture and construction materials, and Dr Chris Beckett, who works on the geotechnical properties of earth building materials. Dr Tanja Romankiewicz and Dr Riley Snyder, experts in Roman and Iron Age architecture and construction, and thin section analysis and architectural energetics respectively, add further expertise as research fellows. The team will collaborate with archaeologists and heritage bodies across Europe to identify sites at which earthen materials have been found and study their uses and properties. Materials samples from selected sites will be analysed using micromorphology.

Project goals

Working through publications and grey literature, a new dataset of sites at which earth and turf structures have been excavated will be created allowing us to map the spread of different materials and their architectural uses. New micromorphology will be undertaken at selected sites to explore how materials were used and which processes were involved in construction. Samples have already been taken from the ramparts at Windolosa, near Hadrian’s Wall, where the techniques are easily discernible due to the incredible state of preservation. Finally, we will reverse engineer new walls in various ancient materials and test their properties to determine the utility of earth and turf for modern sustainable construction. This will subject Roman walls to modern geotechnical techniques and feed back into modern architectural practice.

We host around 80 core researchers and many members of the School have strong public roles, recognised through a wide range of external funding, prizes and awards.
History

MSc by Research 1 yr FT (2 yrs PT available for UK/EU students)

Programme description
This programme is perfect if you have a specific topic of interest you wish to research in depth. In History, we offer supervision across an exceptionally wide chronological and geographical range. When applying, as for other research programmes such as a PhD, you must submit a research proposal explaining your plans and demonstrating your knowledge of the chosen field; this will be closely scrutinised as part of our admissions process. Two supervisors will be appointed to work with you on the project and it is a good idea to consult with prospective supervisors before applying.

Programme structure
This programme is assessed by means of a long dissertation of 30,000 words. You will also take the history skills courses: Historical Research: Skills; and Historical Methodology.

Career opportunities
Our students view the programme and a graduate degree from Edinburgh as an advanced qualification valued and respected by many employers, others are interested in pursuing long term academic careers and therefore consider the MSc as preparation for a PhD. The combination of skills training courses, specialised seminars, and independent research provides you with transferable skills that will be beneficial whatever path you choose. Graduates pursue work in related areas such as museums, policy think tanks, national and international civil services, non-governmental organisations, galleries, libraries and historic trusts while others build on the transferable skills gained and enter areas as diverse as business, media, public administration and marketing.

Entry requirements
A UK 2.1 honours degree, or its international equivalent (www.ed.ac.uk/international/graduate-entrance), in a relevant discipline. You will also require a strong and viable research proposal.

English language requirements
See page 28.

Fees and funding

Our Edinburgh Centre for Global History promotes research into global connections and comparisons from antiquity to the present day.

Scottish History

PhD 3 yrs FT (6 yrs PT available for UK/EU students)

Research environment
Here in the nation’s capital, Scottish history is taught by a strong and distinguished team, comprising seven core academic staff members, plus a number of postdoctoral fellows and associated staff. The subject has been taught at the University of Edinburgh since the prestigious Sir William Fraser Chair of Scottish History and Palaeography was established in 1901. The post is currently held by Professor Ewen Cameron. From the early middle ages to the founding of the new Scottish Parliament, we can offer expertise in all periods of study. Our academic staff have published extensively on topics including late medieval kingship, saints’ cults, urban history, the Reformation and religious change, the witch hunt, government and finance, the Highlands in all periods, Scotland’s external relations and its place in the Union, and culture and society in modern Scotland.

Our PhD students develop a highly valued set of research and professional skills which enable them to go on to a wide variety of careers including academia and in sectors such as museums and heritage, the civil service, banking and the law.

About the School of History, Classics & Archaeology

As one of the largest of its kind in the UK, the University of Edinburgh's School of History, Classics & Archaeology is one of the great world centres for the study of the human past.

We are ranked 13th in the world and 3rd in Europe for arts and humanities. Our expertise ranges from the ancient to the contemporary and stretches to every corner of the globe. This allows us to offer an unrivalled and wide-ranging portfolio of programmes, while our diverse and energetic research culture covers many periods, areas and themes. Our home is the William Robertson Wing, an A-listed building in Edinburgh's Old Town – a UNESCO World Heritage site – that provides state-of-the-art research and study facilities.

Be inspired by world-class research
We cultivate interdisciplinary research collaborations that bring experienced academics, early career and postdoctoral researchers and postgraduates together. Our research groups include digital humanities, intellectual history, material culture and science, medicine and technology. With a research tradition in archaeology, classics and history that we trace back to the 18th century, we offer a stimulating study and history that we trace back to the 19th century. Edinburgh has research and teaching in all the major disciplines in the field: Greek and Latin literature and thought; Greek and Roman history; and Classical art and archaeology. With around 20 permanent academic staff, we are one of the largest, most wide-ranging classics centres in the UK. See pages 4-8 for our history programmes.

History
History at Edinburgh is one of the largest and most distinguished centres of its kind. In fact, we hold the oldest established Chair in Scottish History. Our teaching offers a rich diversity of topics, delivered by a multinational group of historians whose interests cross many periods, regions and specialisms, from Scotland and Renaissance Italy through to contemporary political history and non-European history. Please see pages 4-8 for our history programmes.

Classics
Classics at Edinburgh continues a tradition that goes back to the University’s foundation in 1583. Our teaching covers all the major disciplines in the field: Greek and Latin literature and thought; Greek and Roman history; and Classical art and archaeology. With around 20 permanent academic staff, we are one of the largest, most wide-ranging classics centres in the UK. See pages 8-11 for our classics programmes.

Archaeology
Archaeology at Edinburgh has a long tradition going back to the 19th century. Our first Abercromby Professor of Prehistoric Archaeology was the distinguished prehistorian, Vere Gordon Childe. Edinburgh has research and teaching expertise in European, Mediterranean and Near Eastern archaeology (including Egyptology), and bioarchaeology (human and animal osteoarchaeology). Staff direct fieldwork projects in the UK, Europe, the Mediterranean, Egypt and Turkey. Please see pages 12-14 for our archaeology programmes.

Facilities and resources

Our postgraduate students have access to:
- a dedicated study and computing lab with printing, copying and scanning facilities, overlooking the Meadows, one of the city’s best-loved green spaces;
- two research rooms, shared with undergraduates, housing some of our impressive book collections and a small selection of computing facilities;
- a large common room overlooking the Meadows, shared by students and staff;
- our PhD study room. Subject to available desk space, you may apply after your first year;
- a number of small-scale teaching rooms, well-equipped with facilities such as data projection and smart boards; and
- exhibition areas, filled with artefacts and artwork from our collections.

All of these facilities are within a short walking distance of the University.

Archaeology tools
Archaeology students benefit from our laboratories for artefact analysis, environmental archaeology, osteoarchaeology, bone chemistry and computing (with a wide range of software applications). There is an extensive reference collection of archaeological materials, such as pottery, metal, stone and glass artefacts, in the V Gordon Childe teaching collection. Students can also benefit from the facilities, archives, collections and expertise of a range of heritage agencies and commercial archaeology units based in the city of Edinburgh.

Collections of the University
The University of Edinburgh has one of the world’s great collections, which has been growing ever since its foundation in 1583. Our collections include rare books, archives and manuscripts, historic musical instruments and a wide range of museum objects from geological specimens to anatomical models. Packed end to end, we would have almost 60 kilometres of shelving and storage space devoted to our heritage material, from 1st-century Greek papyrus fragments to new works of sculpture. This is curated by specialist staff across 45 sites and used for our teaching and research and by the wider public community.

The Centre for Research Collections in the Main Library is the hub for all our collections, where specialist curators make them available for study, research and pleasure. Postgraduate students are welcome to study original objects and have made many important research discoveries while working on the archives. You will find an incredible range of material in our collections that is available nowhere else in the world.
Join a thriving community

Our postgraduate students are all encouraged to participate in the School’s rich research community. We host a lively programme of activities and events. You will have the opportunity to attend seminar series in Scottish history, archaeology, classics, and economic and social history. We run medieval and renaissance studies, global history and American history graduate workshops. You can also join the Early American History reading group, the ArchSoc seminar series, the Gender and the Early American History reading group, graduate workshops. You can also join global history and American history specialist interest groups. Our active programme of workshops, seminars, conferences and symposia is supplemented with many informal gatherings and events, and our student societies – ArchSoc, the Classics Society, and the History Society – provide countless opportunities to get to know your fellow students in a non-academic environment.

Learn from distinguished academics

Among our staff are many fellows of prestigious societies, including the British Academy, Royal Historical Society, and the Royal Society of Edinburgh. Our academics are also very active in other professional and funding organisations, such as the Arts and Humanities Research Council, the Classical Association, the Leverhulme Trust, the Irish Research Council, the Carnegie Trust, and the Historical Association. They also have strong public roles in promoting their discipline, including government committee positions and media consultancy.

Employability and graduate attributes

Transferable skills are highly valued by employers and our courses and programmes are designed with this in mind.

Fieldwork and independent research are an essential component on many of our programmes. Many of our students take compulsory courses designed for skills acquisition, while option courses also have specific objectives in terms of skills training.

Our programmes give you the opportunity to gain skills, such as written and oral presentation, data collection and analysis and critical evaluation of research, which will enhance your career prospects in your chosen area.

You will learn how to:

• construct arguments lucidly, coherently and concisely;
• understand complex issues;
• draw valid conclusions from the past;
• assimilate, process and communicate a wide range of information from a variety of sources;
• conceive and pursue a coherent argument founded on evidence;
• undertake a sustained independent research project to a deadline; and
• write clear, accurate and concise prose.

A degree from the School of History, Classics & Archaeology could lead you in a number of career directions depending on your individual interests and experience. Some of our graduates have gone on to pursue work in related areas such as museums, libraries and historic trusts, whilst others build on the transferable skills gained and pursue areas as diverse as marketing, business and media, public administration and teaching.

Institute for Academic Development

All postgraduate students can benefit from our Institute for Academic Development (IAD), which provides information, events and courses to develop the skills you will need throughout your studies and in the future. IAD events also offer the perfect opportunity to meet and network with other postgraduates from across the University.

Further information is available online: www.ed.ac.uk/iad/postgraduates

For taught postgraduates, IAD provides a popular study-related and transferable skills support programme. It is designed to help you settle into postgraduate life, succeed during your studies and move confidently to the next stage of your career. We offer on-campus and online workshops and one-to-one study skills consultations, plus online advice and learning materials. Workshops and learning resources cover key topics tailored to different academic stages, including: pre-apal sessions; getting started with your studies; critical reading, writing and thinking; managing your exams; and planning for and writing up your dissertation.

IAD also provides a comprehensive programme of transferable skills training, resources and support for researchers completing a doctorate. The workshop programme is designed to help you successfully prepare for the various milestones of your PhD, from getting started with your research, to writing up and preparing for the viva, as well as developing personal and professional skills that can be transferred to your future employment. Workshops cover topics such as writing skills, reference management tools, statistics, preparing for conferences, delivering presentations, time and project management, and personal development. IAD also offers online resources and planning tools to help get your research started, as well as support for tutoring and demonstrating, and public engagement and communication.

Careers Service

Our Careers Service plays an essential part in your wider student experience at the University, offering a range of tailored careers and personal development guidance and support. We support you to recognise the wealth of possibilities ahead, while at university and after graduation, helping you explore new avenues, tap into your talents and build your employability with confidence and enthusiasm.

We provide high-quality, tailored support to all students. From exploring career options to making decisions, from CV writing to interview practice, from Employ.ed internships to graduate posts and from career fairs to postgraduate alumni events, we will help you prepare for the future.

We sustain and continually develop links with employers from all industries and employment sectors, from the world’s top recruiters to small enterprises based here in Edinburgh. Our employer team provides a programme of opportunities for you to meet employers on campus and virtually, and advertises a wide range of part-time and graduate jobs.

More information: www.ed.ac.uk/careers/postgrad

Platform One

Platform One is an online meeting place where members of the University community, past and present, can gather. It aims to provide a supportive environment where students, alumni, staff and volunteers can share knowledge and experiences. Together, we form a single community that meets on Platform One. Join us and find out more about the people and possibilities.

More information: www.ed.ac.uk/platform-one

Backing bright ideas

Edinburgh innovations, the University’s commercialisation service, offers free support to student entrepreneurs including one-to-one business advice and a range of workshops, bootcamps, competitions and networking events. Successful recent clients include David Hunter, inventor of the performance-tracking golf watch Shot Scope; Orfeas Boteas, creator of the Dehumaniser sound effects software used by Hollywood movies and blockbuster video games; and Enactus Edinburgh, a team of student social entrepreneurs who represented the UK in the Enactus World Cup with their local and international projects.
Applications and fees

We have an online application process for all postgraduate programmes. It's a straightforward system with full instructions, including details of any supporting documentation you need to submit.

When applying, you will set up an account which lets you save your application and continue at another time.

Full guidance on our application system is available at: www.ed.ac.uk/postgraduate/applying

General requirements
Our usual entry requirement for postgraduate study is a UK 2.1 honours degree, or its international equivalent (www.ed.ac.uk/international/graduate-entry), in a subject related to your chosen programme.

Applicants for PhD programmes must hold a relevant masters degree with a pass of at least 65 per cent in the dissertation and 65 per cent overall, or the international equivalent.

You will also need to meet the University’s language requirements (see below).

Entry requirements for individual programmes can vary, so check the details for the specific programme you wish to apply for.

References
References are not required for taught masters degrees, but can be included and will be necessary for most applications for scholarships. For applications to research programmes, two references are required. You should check the entry criteria for exact requirements for your intended programme of study. For general guidance on references, visit: www.ed.ac.uk/postgraduate/refences

Deadlines
Some programmes have application deadlines. Please check the programme entry online for details. For all other programmes, you are encouraged to apply no later than one month prior to entry to ensure there is sufficient time to process your application. However, earlier application is recommended, particularly where there is a high demand for places or when a visa will be required. Should you wish to submit a late application, please contact us for guidance.

Scholarships (see examples on page 30) require separate applications, and those wishing to apply for them must also have applied for a place to study before the scholarship deadline. In most cases this deadline is around the end of January for PhD applications and around the end of February for MSc applications. Please check well in advance: www.ed.ac.uk/history-classics-archaeology/phd
www.ed.ac.uk/history-classics-archaeology/masters

English language requirements
You must demonstrate a level of English language competency at a level that will enable you to succeed in your studies, regardless of your nationality or country of residence. We accept the following English language qualifications at the grades specified:

- IELTS: total 7.0 (at least 6.0 in each module).
- TOEFL-IBT: total 100 (at least 20 in each module).
- PTE Academic: total 67 (at least 56 in each of the Communicative Skills sections).
- CAE and CPE: total 185 (at least 169 in each module).
- Trinity ISE: ISE III (with a pass in all four components).

Please note:
English language requirements can be affected by government policy so please ensure you visit our degree finder to check the latest requirements for your programme: www.ed.ac.uk/postgraduate/degrees

What type of programme?
We offer a range of postgraduate programmes.

Masters
Our taught masters programmes are designed to deepen knowledge in a subject you will typically have studied at undergraduate level, although they can also offer a new direction in your academic career.

- MSc or MSc by Research
  - Taught masters programmes last 12 months, consisting of two semesters of taught courses followed by an individual supervised research project.
  - An MSc by Research, which also lasts one year, is based on a research project tailored to your interests. The project can be a precursor to a PhD, or it can be a standalone qualification.

- Online learning
  - The University is one of the largest providers of online postgraduate programmes in the UK’s Russell Group.
  - Like our on-campus provision, our online masters are delivered by dedicated academics, many of whom are leaders in their field. You can study full- or part-time towards a Postgraduate Certificate, Postgraduate Diploma or MSc, and the timescales are flexible – you can complete the MSc in a year or take up to six years part-time. Online learning is an extremely flexible option for students looking to balance further study with professional or family commitments. (See page 6).

Research degrees
PhD
As a PhD candidate you pursue a research project under continuous guidance, resulting in a thesis that makes an original contribution to knowledge. You will gain specialist background knowledge for your intended research, and develop the skills to research in that field.

Tuition fees
The following table provides an overview of indicative fee levels for programmes commencing in 2020.

Please note:
- International students starting full-time taught programmes of study lasting more than one year will be charged a fixed annual fee.
- All other students on full-time and part-time programmes of study lasting more than one year should be aware that annual tuition fees are subject to revision and are typically increased by approximately five per cent per annum. This annual increase should be taken into account when you are applying for a programme.
- In addition to tuition fees, your programme may be subject to an application fee and additional costs/programme costs may apply. Please check the latest programme information online.

For UK/EU students

* Figures shown are the 2019/20 fee level

All other fees quoted are indicative of 2020/21 fee levels. Because these figures are indicative, it is important you check online before you apply and check the up-to-date fee level that will apply to your specific programme: www.ed.ac.uk/student-funding/graduate

Asylum seeker tuition fee status and scholarship
Information for applicants seeking asylum from within the United Kingdom, who wish to commence a programme of study at the University in 2020, is available online. This includes our tuition fee rates and scholarship opportunities: www.ed.ac.uk/student-funding/graduate

Tuition fees for EU students
EU students enrolling in the 2020/21 academic year will be admitted as Scottish EU fee status students. Taught masters students will be eligible for the same tuition support as Scottish domiciled students from the Student Awards Agency Scotland (SAAS).
As an international student, I largely credit the University’s funding opportunities with facilitating my academic career goals. I used the student funding pages online to successfully procure two scholarships and a grant that fully fund my PhD and provide me the opportunity to study at a world-class institution.

Meaghan Dyer, PhD Archaeology, Principal’s Career Development Scholarship, Global Research Scholarship and Innovative Initiative grant
The School is located in a recently renovated and historic building in central Edinburgh. Entrance is through the arch of the Dr Elsie Inglis Quadrangle on Teviot Place. The School of History, Classics & Archaeology entrance is doorway four, in the south-west corner of the quadrangle.

Detailed maps can be found at: www.ed.ac.uk/maps
On 23 June 2016 the UK electorate voted in a national referendum to leave the European Union. EU postgraduate taught students enrolling in the 2020/21 academic year will be admitted as Scottish/EU fee status students and eligible for the same tuition support as Scottish domiciled students for the duration of their studies. This will still be the case in the event of a Brexit no deal scenario. For the latest information for students and applicants from the EU, please visit our website: www.ed.ac.uk/news/jeu

The University’s standard terms and conditions will form an essential part of any contract between the University of Edinburgh and any student offered a place here. Our full terms and conditions are available online: www.ed.ac.uk/student-recruitment/terms-conditions
