

Participant Study Number

Feasibility Study Investigating Pravastatin for the Prevention of Preterm Labour in Women (PIPIN)

General Data Protection Regulation (GDPR) Participant Information

The EU General Data Protection Regulation (GDPR), along with the new UK Data Protection Act, will govern the processing (holding or use) of personal data in the UK.

You are receiving this as you are currently a participant on this clinical research study. The information below details what data is held about you and who holds or stores this.

The University of Edinburgh and NHS Lothian are the co-sponsors for this study based in Scotland. We will use information from you and/or your medical records in order to undertake this study and will act as the data controller for this study. This means that we are responsible for looking after your information and using it properly. The co-sponsors will keep identifiable information about you for 5 years after the study has finished.

As a university and NHS Organisation, we use personally-identifiable information to conduct research to improve health, care and services. As a publicly-funded organisation, we have to ensure that it is in the public interest when we use personally-identifiable information from people who have agreed to take part in research. This means that when you agree to take part in a research study, we will use your data in the ways needed to conduct and analyse the research study. Your rights to access, change or move your information are limited, as we need to manage your information in specific ways in order for the research to be reliable and accurate. If you withdraw from the study, we will keep the information about you that we have already obtained. To safeguard your rights, we will use the minimum personally-identifiable information possible.

Providing personal data directly e.g. verbally, in a questionnaire or from your care provider

The NHS and University of Edinburgh will use your name, NHS/ Community Health Index (CHI) number and contact details [add other identifiers] to contact you about the research study, and make sure that relevant information about the study is recorded for your care, and to oversee the quality of the study. Individuals from University of Edinburgh and NHS Lothian, and regulatory organisations, may look at your medical and research records to check the accuracy of the research study. NHS Lothian will pass these details to University of Edinburgh along with the information collected from you and your medical records. The only people in sponsor organisation who will have access to information that identifies you will be people who need to contact you to collect information about your experience of the trial, or audit the data collection process.

NHS Lothian and University of Edinburgh will keep identifiable information about you from this study for 5 years after the study has finished.

Providing personal data indirectly e.g. from your medical records

University of Edinburgh and NHS Lothian will collect information about you for PIPIN from your medical records, both online (TRAK) and your handheld notes. This information will include your name, Community Health Index (CHI) number, contact details and health information, which is regarded as a special category of information. We will use this information to analyse the data we have collected during your participation in the study.

Use of data for future research

When you agree to take part in a research study, the information about your health and care may be provided to researchers running other research studies in this organisation and in other organisations. These organisations may be universities, NHS organisations or companies involved in health and care research in this country or abroad. Your information will only be used by organisations and researchers to conduct research in accordance with the [UK Policy Framework for Health and Social Care Research](#).

Your information could be used for research in any aspect of health or care, and could be combined with information about you from other sources held by researchers, the NHS or government.

Where this information could identify you, the information will be held securely with strict arrangements about who can access the information. The information will only be used for the purpose of healthcare research, or to contact you about future opportunities to participate in research. It will not be used to make decisions about future services available to you, such as insurance.

Where there is a risk that you can be identified your data will only be used in research that has been independently reviewed by an ethics committee and/ or the sponsor.

Contact for further information

You can find out more about how we use your information and our legal basis for doing so in our Privacy Notice at www.accord.scot.

For further information on the use of personal data by NHS sites, please link to the Health Research Authority (HRA) website; <https://www.hra.nhs.uk/information-about-patients/>.

If you wish to raise a complaint on how we have handled your personal data, you can contact our Data Protection Officer who will investigate the matter. If you are not satisfied with our response or believe we are processing your personal data in a way that is not lawful you can complain to the Information Commissioner's Office (ICO) at <https://ico.org.uk/>.
