HONOURS IN LINGUISTICS AND ENGLISH LANGUAGE: HANDBOOK

This brief handbook is for students taking Honours courses in Linguistics and English Language (LEL) at the University of Edinburgh in the 2019-20 academic year. It doesn’t matter whether you are a home student who will graduate from the University of Edinburgh or a visiting student who is here for one semester or one year, whether you are in your third or fourth year of study, or whether you are doing a single Honours degree in our department, or a combined degree with another subject: the information in this handbook is relevant for anyone taking an Honours course with us.

Please read the information carefully, and get in contact if you have any additional questions. We’re looking forward to our classes with you this year, and hope you find your studies challenging and rewarding.

Other sources of information and support

The material in this handbook deals primarily with issues relating to specifics of the Honours programme in LEL. Another source of information which you should also familiarise yourself with is the PPLS student handbook, which deals with topics such as degree transfers, requests for extensions, the common marking scheme, and expectations regarding attendance.

You should also feel free to contact the Director of Teaching (see contact information below) with any questions about teaching in the Honours years.

For more general issues concerning your studies, don’t forget that you can speak to your personal tutor, or one of our student support officers (SSOs). The student support office can be found on the ground floor of the Dugald Stewart Building.

Overview

Within the Department of Linguistics and English Language there are a number of Honours degree programmes: for example, Single Honours degrees in Linguistics, English Language, and Linguistics and English Language. In addition, we have a number of Combined Honours degrees involving Linguistics or English Language and another subject. Such degrees are always run by the first-named subject area; e.g. ‘Honours in French and Linguistics’ is run by French (within a different school of the university, in this case Literatures, Languages and Cultures).

The list of Honours courses offered can be roughly divided into English Language courses and Linguistics courses but many courses figure in both sections. Some Honours courses may have the completion of others as prerequisites: such prerequisites are indicated in the detailed course web pages on DRPS.

We do not distinguish between third and fourth year courses: any course can, in principle, be taken by third and fourth year students alike. Note also that the core courses stipulated for individual curricula do not all have to be taken in year 3: you may spread them over the two honours years in any way you like.

All courses are weighted at 20 credits. Students take 120 credits in any one academic year (in fourth year, 40 of these 120 credits are taken up by your dissertation).

How many courses do I take?

The number of courses you take and their permitted combinations depends in part on the degree you are taking, and whether you are spending or have spent your third year abroad.

The information below is grouped into the following sections:

- Single Honours degrees, for home students taking a degree that involves only Linguistics and English Language courses.
- Combined Honours degrees, for home students taking a degree that combines LEL with another subject
- Visiting students, for students who will graduate from another university but are spending a semester or a year studying in Edinburgh

For students who are spending or have spent their third year abroad, specific arrangements apply. You should keep in regular contact with the department’s international coordinator, Dr Patrick Honeybone. In discussion with him, with the Director of Teaching and with your personal tutor, you should ensure that you are taking the right number and combination of courses in your fourth year.
**Single Honours degrees**

**Linguistics**
Over the two Honours years, you take ten courses (six in year 3 and four in year 4) and write a Dissertation in year 4. Of these ten courses, two must be taken from **LINGUISTICS CORE: STRUCTURE** and two from **LINGUISTICS CORE: OTHER** (see page 5). Five more courses may be chosen from anywhere in the Linguistics column, core or options; and one more course may be chosen from anywhere in the Linguistics and English Language columns.

**English Language**
Over the two Honours years, you take ten courses (six in year 3 and four in year 4) and write a Dissertation in year 4. Of these ten courses, two must be taken from **ENGLISH LANGUAGE CORE: STRUCTURE** and two from **ENGLISH LANGUAGE CORE: HISTORY** (see page 5). Five more courses may be chosen from anywhere in the English Language column, core or options; and one more course may be chosen from anywhere in the English Language or Linguistics columns.

**Linguistics and English Language**
Over the two Honours years, you take ten courses (six in year 3 and four in year 4) and write a Dissertation in year 4. Of the ten courses, one each must be from **LINGUISTICS CORE: STRUCTURE**, **ENGLISH LANGUAGE CORE: STRUCTURE**, **LINGUISTICS CORE: OTHER** and **ENGLISH LANGUAGE CORE: HISTORY** (see page 5). The remaining six courses may be chosen from anywhere in the English Language or Linguistics columns.

**Combined Honours degrees**

**Modern Language and Linguistics**
In these degrees, the two Honours years are treated separately. You will be abroad during year 3, and during that year you will be assessed on 40 credits of work for Linguistics which will count towards your final degree classification. In year 4, you must take three courses in Linguistics. They may be chosen from anywhere in the Linguistics column.

If you are studying a Modern European Language (other than Russian) and Linguistics, you can choose to write a dissertation for Linguistics; the regulations for this are explained in your DPT. You will need to make this decision around the Easter break of your second year, as it determines how many credits you need to study while abroad: if you choose to write a dissertation for LEL, you will need to return marks for 10 ECTS worth of courses studied abroad (= 20 Edinburgh credits); if you choose not to write a dissertation for LEL, you will need to return marks for 20 ECTS worth of courses studied abroad (= 40 Edinburgh credits).

If you are studying Japanese, Chinese or Russian Studies and Linguistics, however, it is not possible to write a dissertation for LEL.

**Modern Language and English Language**

Other Combined Honours degrees involving Linguistics
These degrees require that one course is chosen from LINGUISTICS CORE: STRUCTURE, one course from LINGUISTICS CORE: OTHER (see page 5), two further courses from anywhere in the Linguistics column, and typically one further course (although most degrees allow variation here) from anywhere in the Linguistics or English Language columns. The Dissertation is written in year 4. Consult the relevant online regulations and your Personal Tutor for further details.

Courses available in 2019-20

The table on the next page lists the courses offered at Honours level in Linguistics and English Language in the 2019-20 academic year. A number of our courses are offered in alternate years, and therefore will not be available in 2020-21. Furthermore, members of the academic staff go on sabbatical leave, or may acquire research grants, with the consequence that some courses which would normally run may not run in 2020-21. As a result, not all of the courses listed here will be available in your fourth year.

The number in front of each course refers to the semester it runs in. Courses marked with an asterisk use computer labs and therefore the number of places available will be limited by the number of spaces in the lab. The name in brackets after each course is the name of the course organiser, who you should contact if you have specific questions regarding teaching and learning issues associated with that course, including the type of assessment.

It is the responsibility of the student to ensure that the correct number of Linguistics and/or English Language courses is taken in each of the Honours years, that the required number of
Core courses is taken, and that the prerequisites for any course chosen are met. You should seek your Personal Tutor’s or the Director of Teaching’s advice if you are not sure.

Students expecting to choose an experimental or survey-based topic for their Dissertation are strongly advised to take Statistics and Experimental Design.

**Dissertation in Language Sciences**

All Single Honours students in English Language and/or Linguistics (as well as some students on Combined Honours degrees), write a 40-credit Dissertation of 7,000 - 10,000 words within English Language and Linguistics in their fourth year. Not included in the word count are the references section at the end, and any appendices you might want to add.

Possible dissertation topics and allocation of supervisors, etc. are discussed in a meeting towards the end of your third year. You should contact prospective supervisors over the summer and at the latest by the end of Welcome Week in September; your topic and supervisor must be finalised by the 20th September 2019. Throughout the year, your individual supervision sessions will be complemented by a series of lectures and small group meetings on research methods and other skills to help you while you do the research and writing for your dissertation.

For your dissertation research, you may run experiments and/or collect data through other means from human subjects; you are expected to follow the LEL ethics guidelines. The process you must follow will be explained to you in the research methods course. Every dissertation project involving human subjects, or any other pre-existing data which have ethical implications, must be submitted along with evidence of ethical approval. If neither of these applies to your project you do not need to seek ethical approval.

Prizes

The Angus McIntosh Prize

The Angus McIntosh Prize is awarded annually for the best first-class honours dissertation in Linguistics and/or English Language and is worth £100.

Angus McIntosh (1914-2005) was the first Forbes Professor of English Language and General Linguistics at the University of Edinburgh. Appointed to the Chair in 1948 after war-time work at Bletchley Park, he spent the remaining 31 years of his academic career in that post. He founded both Linguistics and English Language at Edinburgh and for many years led what was probably the strongest department of English Language found anywhere in the world. Angus’s life-long pioneering work in linguistics and English language is also commemorated in the McIntosh-Patterson PhD Studentship.

The Patterson Prize

The Patterson Prize is awarded annually for the best course mark or honours dissertation on Old English. The prize, worth £100, can be awarded to a third-year, fourth-year or visiting student.

The Patterson Prize was first awarded in 1880. Its benefactor, the Reverend John Patterson, was a Classics and English master at George Watson’s Ladies College in 7 George Square (now the home of PPLS’s Psychology subject area). The Patterson legacy has additionally helped make possible the McIntosh-Patterson PhD Studentship.
