Note: There are two steps to exporting content from Pure to ORCID.
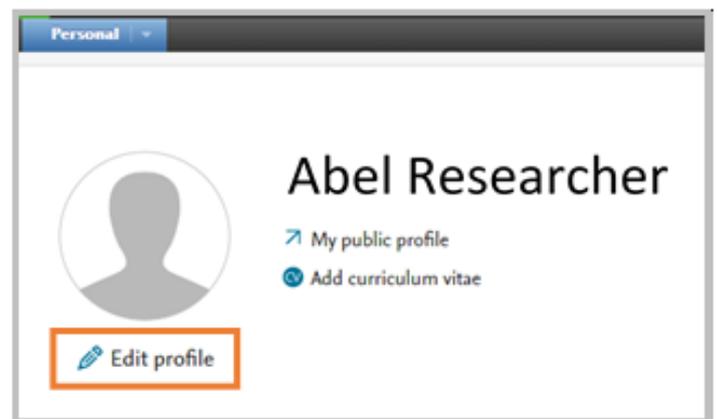

- Authorising export of content
- Maintaining export of content

To export content from Pure to ORCID, you will need to add your ORCID to your Pure profile. For information on how to Connect your ORCID to your Pure profile, see Your Profile.
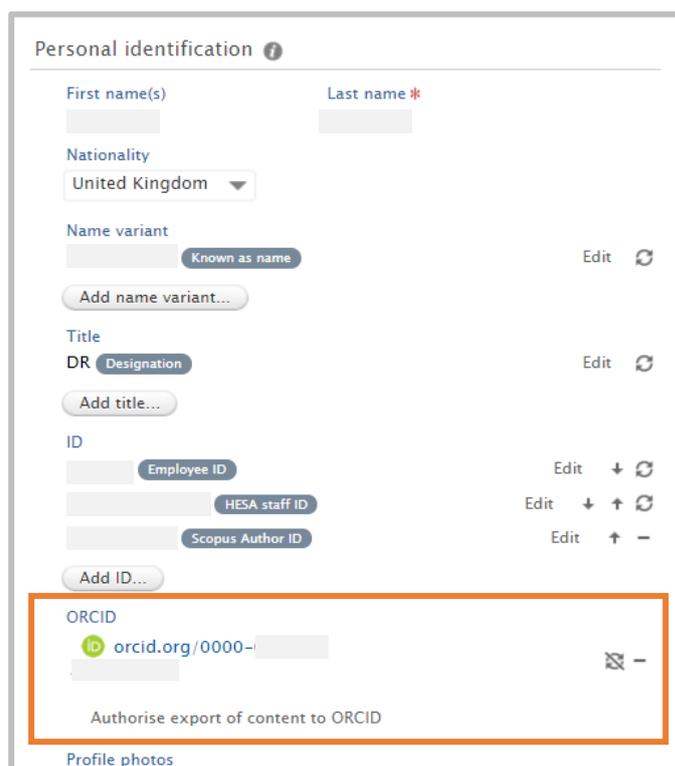

Authorising Export of Content

**1.** Log in to Pure with your University Login (formerly EASE) at https://www.pure.ed.ac.uk

2. Click on **Edit profile**.

3. Look for **ORCID** in the Personal Identification section of the Edit profile window.

4. Click on **Authorise export of content to ORCID** underneath your ORCID**.**

5. You will see a pop-up that contains information about the export of content to ORCID.

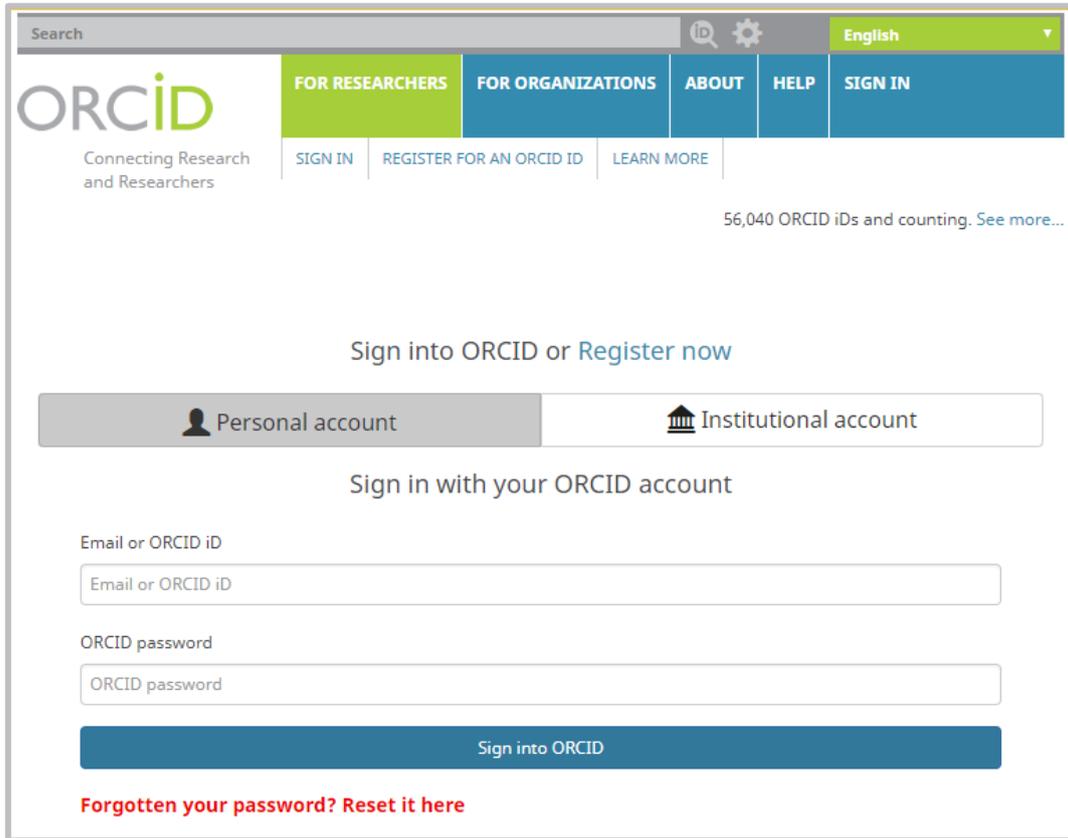

Click on **Proceed**. This will take you to the ORCID login screen.

Note: Connecting with ORCID here will initiate an export of your content from Pure to ORCID, but the continued export of content from Pure to ORCID is not automatic.

6. Enter the email address that you have used for your ORCID account or your ORCID ID.

Enter your ORCID password.
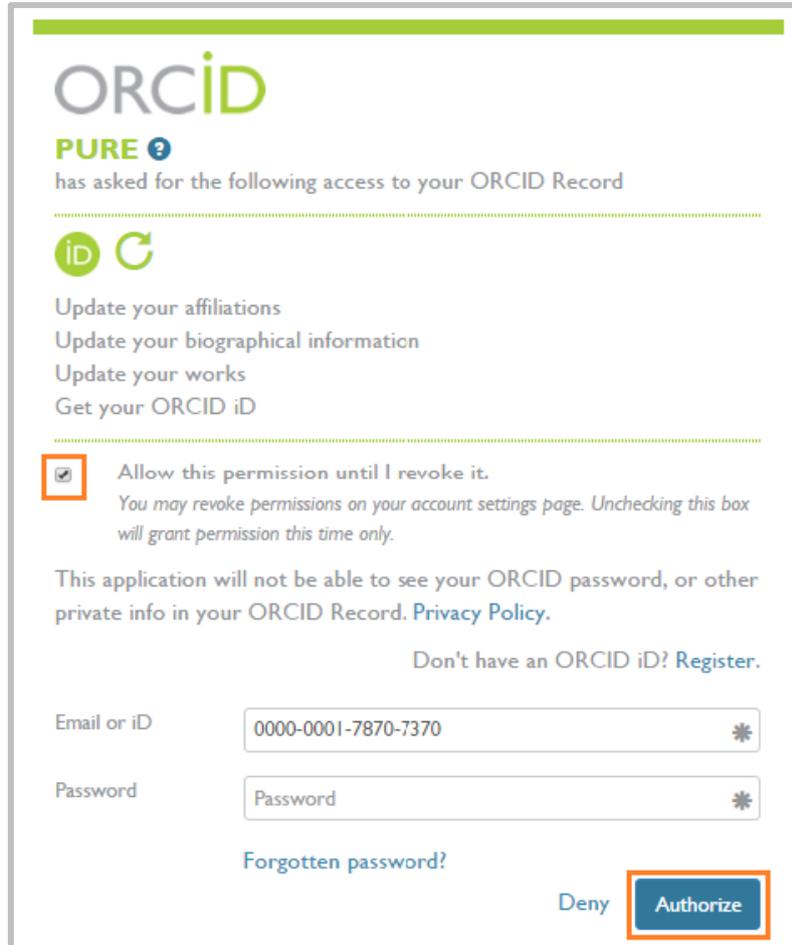

Click on **Sign into ORCID**.

Note: If you have linked your ORCID account to the University of Edinburgh, click on **Institutional account** and search for University of Edinburgh

If you have not linked your ORCID account to the University of Edinburgh, click on **Personal account**.

7. Logging in to ORCID takes you to the ORCID Authorisation screen.

Select the checkbox for **Allow this permission until I revoke it**.

8. Enter the email address that you have used for your ORCID account or your ORCID ID.

Enter your ORCID password.

Click on **Authorize**.

9. In the Pure Edit Profile window, you will see confirmation that authorisation was successful and content was exported.

10. Remember to click **Save** at the bottom of the Edit Profile window.

Maintaining Export of Content

Connecting your Pure profile with your ORCID and authorising export of your content from Pure to ORCID does not automatically export any new content added to Pure.
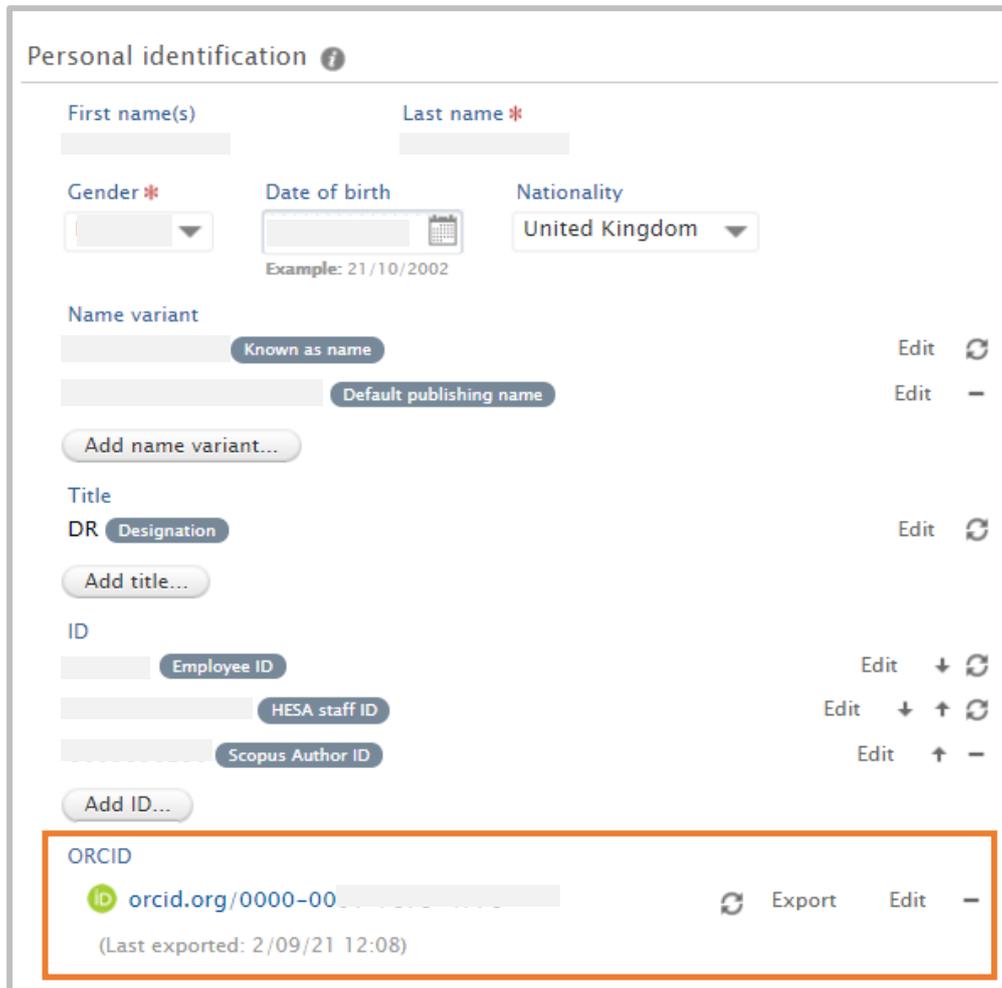

It is recommended you follow the steps below regularly, whenever new research outputs are added to your Pure profile.

1. Log in to Pure with your University Login (formerly EASE) at https://www.pure.ed.ac.uk
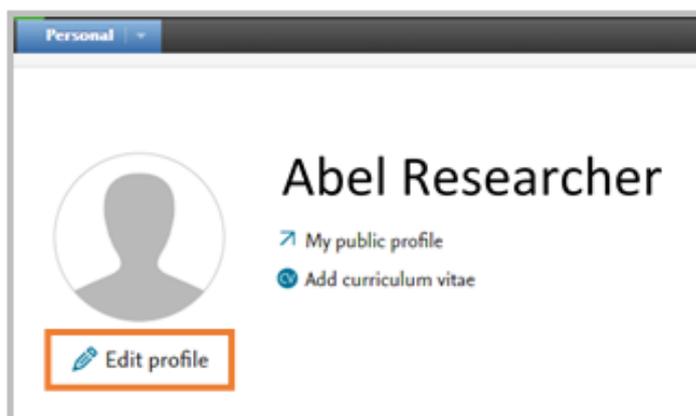

2. Click on **Edit profile**.

3. Look for **ORCID** in the Personal Identification section of the Edit profile window.

4. The **Last exported date** is displayed below your ORCID.

Click on **Export** to update your ORCID with new Pure content.

Note: Only research ouputs that have been **validated** will be exported to ORCID.
