<p>Pin an app to the Taskbar/Start menu</p> <p>Pin an app to the Taskbar or Start menu</p> <ol style="list-style-type: none"> Click the Start button or press the Windows key.  Type the name of the app to be added. Right click the app name from the list of search results (if the app is not found, click away from the pane to close it). Select pin to Taskbar/Start menu. 	<p>The Software Center</p> <p>The Applications Catalogue is now the Software Center. To find specialist-software:</p> <ol style="list-style-type: none"> Click the Start button or press the Windows key.  Type Software Center and press Enter. Click on the item that appears. The Software Center window is opened.  <ol style="list-style-type: none"> You may change the filter by clicking the dropdown arrow to the right of the Filter box and selecting another category to view. You may also sort applications alphabetically and under various other conditions by clicking the downwards arrow in the Sort by: box and selecting a different means of sorting. Click in the Search box to the right of the window, type the name of the software you are looking for and press Enter. Any matches for the text you typed are displayed. Some apps require licence approval. If this is the case, a pane similar to that shown below is displayed. You must enter the reason for your requirement in the textbox and click the Request button.  <p>Once approval is confirmed, follow steps 1-7, select the app to be installed and follow the installation instructions.</p>	<p>General shortcuts</p> <p>Alt+Tab Switch between apps</p> <p>Alt+F4 Close an app</p> <p>Ctrl+C Copy a file/folder/text</p> <p>Ctrl+P Print</p> <p>Ctrl+V Paste a file/folder/text</p> <p>Ctrl+X Cut a file/folder/text</p> <p>Ctrl+Z Undo an action</p> <p>Ctrl+Y Redo an action</p> <p>Browser shortcuts</p> <p>Ctrl+T Add a new tab (in a browser)</p>
<p>Change the default search engine (Bing)</p> <ol style="list-style-type: none"> Open the Edge browser by clicking the Edge icon on the Taskbar.  Navigate to your favoured search engine's home page. Click the ellipsis button  to the top right of the window. Select Settings > View Advanced Settings > Change Search Engine. Select your favourite search engine from the list > Set as Default. Click away from the grey pane to the right of the window to close it. Close the Edge browser. 	<p>Change the default browser (Edge)</p> <p>The browsers offered are Edge, Firefox, Google Chrome and Internet Explorer. If your favoured browser is not one of these, ensure that you have already downloaded and installed it, if necessary. Then:</p> <ol style="list-style-type: none"> Hold down the Windows key  and press I to view Settings. Select Apps > Default apps. Under the Web browser heading, click the current browser name to see alternatives. Select the new browser. Close the dialogue. 	
<p>Save a file as a PDF</p>		
<p>Save as PDF</p> <p>Some Office apps, including Word, Excel and PowerPoint, allow you to save a file as a pdf. Windows 10 allows users to save any app product as a PDF if it can be printed, using the Print to PDF function. To use this feature:</p>	<p>From within the app with the item to be saved onscreen:</p> <ol style="list-style-type: none"> Hold down the Ctrl key and press P (Print). The Save Print Output As window appears. Under the Printer heading, select the Microsoft Print to PDF option. Make any further selections required (i.e. pages to be included). Click the Print button. Select the desired location for the new file. Type a filename and click the Save button. 	
<p>Get Help</p>		
<p>In Windows 10</p> <p>To find help on a Windows 10 feature, click the Start button, type the name of the feature (where it says 'Type here to search') and press Enter. Information can also be found on the Windows 10 training site: http://www.ed.ac.uk/is/windows10/training</p>	<p>Microsoft Support</p> <p>The Microsoft site offers help on all Windows 10 topics: https://support.microsoft.com/en-gb/hub/4338813/windows-help?os=windows-10 Click the link above to enter the site. Click the magnifying glass  icon to the top right of the page, type your query and press Enter. Matching articles are displayed.</p>	<p>Lynda.com</p> <p>The Lynda.com online video service offers help on several Windows 10 topics.
