Frequency of Meetings

3. REIRG meets five times each year. As a subgroup of Research Policy Group the Convener will provide a report to RPG covering issues that REIRG feel merit the attention of RPG.

Reporting

4. Reporting on research integrity and ethics matters is intended to be both being light touch and ensure compliance with external reporting requirements and show senior management of the University that there is clear and effective processes for the monitoring of research with regard to integrity and ethics. We will, at a minimum, need to ensure we can show we are compliant with the UUK Concordat on Research Integrity as well as meeting any specific requirements of funders such as RCUK and the Scottish Funding Council.

5. SFC’s requirements are light-touch—we are required to assure through the Annual Outcome Agreement that we are compliant with the UUK Concordat on Research Integrity.

6. We will regularly review our approach to annual reporting to ensure that we remain fully compliant with the expectations of RCUK and funders of University of Edinburgh Research other than SFC and RCUK. As a subgroup of RPG, we will ensure that the group’s annual report to the University’s Research Management committee shows our full commitment to maintaining and promoting the highest standards of research integrity and ethics within the university.

7. We recognise that individual Colleges of the University of Edinburgh may have additional needs that need to be part of their individual reports but the minimum is what is needed to create a university-level report that can be provided to RCUK, and provided to any other external agencies that require it.
