

The Hutton Club

Friday 17th January

Dr. Veerle Vanacker

Université Catholique de Louvain

Forget the tennis, **The Hutton Club** is the hottest ticket this week.

Human disturbances to soil systems in the Western Mediterranean. What do we learn from contrasting short-term erosion rates with long-term denudation and soil weathering rates?

4 pm, Room 2.13, Drummond St

Cool off with some free refreshments, this week including Stewarts Pentland IPA.
