

The Hutton Club

Friday 14th June

Antonio Alvaro Buso Junior

Centro de Energia Nuclear na Agricultura, Universidade de São Paulo & School of Geosciences, University of Edinburgh

I am pleased to announce the Special One is returning to the UK. For me, it is not for the money or the adoration of the fans, but purely because I have missed the intellectual discussions generated at the **Hutton Club**.

Late Pleistocene and Holocene vegetation and climate dynamics at Linhares, southeastern Brazil - Atlantic Forest biodiversity and past climate changes

4pm – Old Library, Drummond St

Refreshments fit for a Russian oligarch will be provided

#HuttonClubSpecialOne
