

# The Hutton Club

Friday 13<sup>th</sup> January

## Dr. Doug Benn

School of Geography and Geosciences - University of St. Andrews

I don't have a problem with drinking any more. In fact I rather enjoy it! Now if you'll excuse me, the **Hutton Club** has some free beer going begging...

**‘Calving processes and the dynamics of water-terminating glaciers’**

Come along – beer and discussion will be at 4pm in the Old Library, Geography.
