

The Hutton Club

Friday 30th Sept.

Dr. Helen McGregor

Research Center for Ocean Margins
Universität Bremen

As the Prime Minister left for the Labour party conference in Brighton he was heard to mutter "I'd much rather be at the Hutton Club". A feeling no doubt shared by many party members.

A warm Little Ice Age and cool Medieval Warm Period recorded off NW Africa: Evidence for solar-climate links?

Join us for discussion (and refreshments)
