A brief history of STIS at the University of Edinburgh

- One of the foundational centres for studies of science, technology and innovation
- Founded in 1966 and internationally renowned

Sociology of Scientific Knowledge (70s and 80s)

Social Shaping of Technology (80s and 90s)

THE UNIVERSITY
of EDINBURGH

■ STIS today:

An interdisciplinary group of approx. 40 academics organised around five research themes (www.stis.ed.ac.uk) - all social science based

Energy, Environment & Sustainability	Innovation in Life Sciences (Agriculture, Food & Health)	Social Studies of Biology & Medicine	Historical Approaches to Science, Technology & Medicine	Social Studies of Information & Communication Technologies
---	---	---	--	---

STIS plays a key role in multi-disciplinary research centres

- Centre for Science, Knowledge and Policy (SKAPE): <https://www.skape.ed.ac.uk/>
- UK Energy Research Centre: <http://www.ukerc.ac.uk>
- Innogen: <https://www.innogen.ac.uk>
- ClimateXChange: <https://www.climateexchange.org.uk>
- Centre for Data Culture and Society (CDCS): <https://www.cdcs.ed.ac.uk/>

Who are the STISers?

- Interdisciplinary
- Common interest in mutual shaping of science, technology and society
- Some theory inclined, others practice and policy oriented through collaborations with scientists, engineers and policy makers
- Diversity of backgrounds and flexible intellects
- Not necessarily social scientists by background, often fall between the cracks of traditional disciplines (but SaTiS *is* a social science programme!)

MSc SaTiS Programme structure

Semester 1 (compulsory)	Semester 2 (pathway options)	Spring/Summer
Science, Knowledge and Expertise (20 credits)	Option (20 credits; or 2 x 10 credits)	Dissertation (60 credits)
Understanding Technology (20 credits)	Option (20 credits; or 2 x 10 credits)	
Innovation Systems and Risk Management (20 credits)	Option (20 credits; or 2 x 10 credits)	

MSc SaTiS Programme structure

Possible Pathway courses

Pathway1: Energy and Environment

PGSP11132: Energy Policy and Politics

PGSP11400: Innovation in Sustainable Food Systems

Pathway 2: Life Sciences/Bioeconomy

PGSP11331: Biobusiness

PGSP11476: Social Dimensions of Systems and Synthetic Biology

Pathway 3: Data and Society

PGSP11116: Internet, Society and Economy

PGSP11467: Controversies in the Data Society

Past Dissertation topics: examples

- Media analysis of Covid-19 scientific claims
- Use of hydrogen fuel in the Scottish economy
- Critical review of the ‘Surveillance Society’
- Social organisation and activist science: Do-It-Yourself Biology (DIYBio) movement
- Investigating the German welfare software algorithm – ALLEGRO
- Public engagement and the public perception of science - Science Ceilidh

Careers

- Analyst at innovation policy consultancy
- Technology management consultant
- Policy Officer
- Technology PR
- Policy adviser
- Science writer
- Project Development
- University research
