Introduction

This guide covers key tasks in the 'Setting up Delegation for a Planned or Unplanned Absence' system process.

Before you start

Familiarise yourself with the <u>Guide to Employment and Finance Approvals</u>.

To ensure that delegation is utilised appropriately and consistently, the following Standard Delegation criteria must be adopted:

- Delegation is for ALL People and Money approval responsibilities to a single person, this must be to a UoE employee.
- Delegation is in response to a short term need i.e. annual leave, specific work priorities compromising capacity for a period, a period of someone acting up to cover additional responsibilities.
- Delegation must have an end date (exception is where someone is on long term sickness).
- Delegation is for a maximum of 3 months.
- Delegation must be to someone on a higher job grade, same grade or a maximum of two job grades below with the caveat that delegation should not be to a member of staff below a grade 6 (it is deemed appropriate that a manager passes their responsibilities to a depute for a period of time).
- Delegation should be to an appropriate deputy rather than all managers in a School/Department delegating to a single person.
- To ensure financial control and segregation of duties, where a line manager has delegated to one of their reports the delegatee must not submit transactions during the period of delegation.

Delegation during a period of planned absence

- Delegation will begin after the date of set up, if there are any 'in flight' approval tasks assigned to you before the start date of the delegation period, these will continue to sit in your worklist for action. It is important to review and approve any inflight transactions before setting up a delegation period.
- An end date should always be provided to avoid open delegations.

Notifications during a Delegation Period

- Once the delegation period has been set up all system notifications will route to the delegatee during that time.
- The delegator will still see the tasks for approval within the worklist via the bell notification icon and can still approve these tasks if required during or after the period of delegation.

Delegation during a period of unplanned absence

- In this situation line manager of the absent employee can request that a delegation period be set up by raising a Service request>Forms> Role Delegation for Longer Term Absences. Please provide the start and estimated end date and the name of the person you wish to delegate to.
- If there are any individual tasks in flight that need to be reassigned during a period of absence line managers can action this, please see below.

Delegation of Procurement Requestor Tasks

Please read the guidance within <u>PM3247- Receiving Goods or Services using Goods Receipt Notice (GRN)</u> (page 7) to understand the process the delegatee must follow to goods receipt goods or services.

For Finance tasks, you can also choose to reassign or re-route an approval task if their reportee is unable to do it on an ad hoc basis (or if additional approval is needed from someone outline the standard approval line).

Line Managers **should also** request that any future approvals are delegated by raising a Service Request and using the Forms > Role Delegation for Longer Term Absences category. Please provide the start date, estimated end date and the name of the delegatee.

Reassign	Reassigns approval task but not approval level to another user. After approval by the assignee, the approval workflow follows the assignee's hierarchy if further approval is required.	Use with guidance. Where approval needs to be completed by a specific budget holder and then their line manager hierarchy.
Route Task	Approve and add an additional approver to the approval workflow (directly after current approver). After approval by the additional approver the approval workflow returns to the original approval hierarchy if further approval is required.	Use with guidance. Adding a budget holder or interested person into the approval hierarchy.

7. If you are reassigning or re-routing the task elsewhere, Type the **Name** of the person to assign to and then press **Submit**.
