### The COVID-19 pandemic and your life

We're inviting you to take part in a survey about coronavirus (COVID-19). It's called **TeenCovidLife**. We want to know how COVID-19 is affecting you. If you want to take part, you'll be asked how it has changed things for you at home, at school, and your plans for the future. The survey will also ask about your health and well-being.

If you took part in survey 1 and gave us your email, we've sent you an invite. Please use the link sent to you. It will make the survey shorter and easier to finish.

**If you didn't take part in survey 1, or didn't give us your email, you can still take part now. Please keep reading.**

You can read more information about the project on the next page. You'll be asked 2 questions after you have read it all. This is not a test. It is to make sure we explain our study well. It also checks that you know what you're agreeing to.

PRESS **NEXT** TO READ MORE ABOUT THE STUDY

## **Why are we doing this research?**

Our survey wants to know how COVID-19 is affecting you. Once we know, we can think about how to address the concerns of young people. We can then support young people where necessary and prepare for the future. You can find out more about the survey [here](#).

## **What is involved?**

We'll start by asking some general questions about you. We'll ask for your email address. You don't need to provide an email address if you don't want to. We won't ask for any other details that identify you. We will also want to know your age. If you go to school, we'll ask which year you are in at school. Most questions will ask you to pick your answer from a list of options. Some questions are specific to COVID-19. Other questions are more general. We'll ask about how your life has changed and how you are coping with these changes. We hope you'll be able to answer them all. You can skip any you don't want to answer.

This survey will take about 20-25 minutes to complete.

We'll email you about future surveys, if you provide an email address. This allows us to see the long term effects of COVID-19. We'll do a final survey after the restrictions are lifted. It's up to you whether you do any other surveys.

The information you provide will be looked at by the [Generation Scotland](#) team. They work at the [University of Edinburgh](#). Their researchers and [NHS](#) partners will also be able to work on this information.

## **Who can take part?**

Taking part is open to **anyone in Scotland aged 12-17 years old**. You must have access to the internet to join.

## **What will happen to the details I give you?**

All of your details will be safely and securely stored. If you provide your email address, it will be kept separate from your answers. Your email won't be given to anyone. We'll also ask for the first part of your home postcode and the name of your school. This will tell us about the area you live in. It can tell us about shops, transport and parks.

We'll remove any identifying information before researchers can look at it. If you go to school, your school may also receive a summary report. This report will be for everyone at the school taking the survey. It won't identify you.

We'll report what we find in tables and graphs. These will be found on [our website](#) and social media. The local government may also receive a report. We'll also write a final report which you'll be able to read online.

## **How do I stop taking part?**

You can email us to stop taking part at any time. You don't have to give a reason.

## **Ethics approval**

In the UK, **ethics committees** must review health research studies before they start. They check that our research is well made and protects our volunteers. This study was approved by the [East of Scotland NHS Research Ethics Committee](#). They have said it is OK for us to do this research.

## **How long will my data be stored for?**

Once the study has finished, your answers will be [securely stored](#). They will stay with the University of Edinburgh for at least ten years.

## **Concerns**

If you're worried about how your data is looked after, you can email the University of Edinburgh at [dpo@ed.ac.uk](mailto:dpo@ed.ac.uk). You can also email [dpo@ed.ac.uk](mailto:dpo@ed.ac.uk) if you'd like to talk to someone about your rights.

If you have any other worries about the study, you can get in touch with the Generation Scotland team at: [genscot@ed.ac.uk](mailto:genscot@ed.ac.uk)
