

A dozen new recruits in November made it a record-breaking month for CARE.
You have recruited 80% of the target. Just another 12 to go!

Thanks to our 3rd top recruiting team in **Middlesborough...**

Left to right: Emanuel Cirstea (research nurse), Nitin Mukerji (consultant neurosurgeon, PI), and Lucie Ferguson (higher specialty trainee in neurosurgery). Mr Manjunath Prasad is missing.

Screening and recruitment activity

- **48 participants randomised**
- **21 sites have screened**
- **3 sites still to start screening**

Looking for guidance? [The CARE website](#) has been updated with more **“CARE Chats” videos, which provide top tips for collaborators.**

TOTAL		334	48

Top Tip!

Please upload complete screening data

1. If you have screened patients but you haven't added them to the database, please do so as soon as you can.
2. If you have screened patients and recorded them, please ensure that all three of the screening eCRFs are complete – when they are complete, they turn **green** on the web portal.
3. If you have randomised eligible patients please ensure that the clinical presentation information on the **Screening > Eligibility** and **Baseline > Symptomatic brain cavernoma** eCRFs are the same.

Our data managers will be in touch if any of these issues remain outstanding. If you have any questions please do not hesitate to get in touch via care.trial@ed.ac.uk
