

Calculate course results for multiple students

Process Overview

Step by Step Instructions

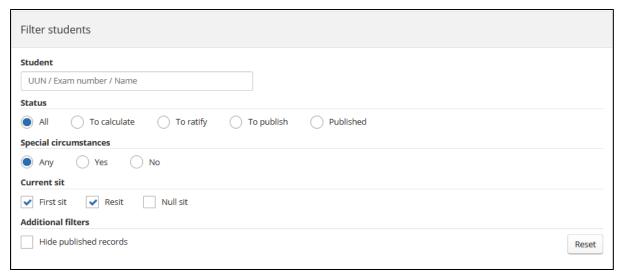

1. Go to Process Course Results

2. Filter/search for the students if required

If you only want to calculate specific students use the search box to find students or filter the list by Status (to calculate) or Current sit (first sit, resit).

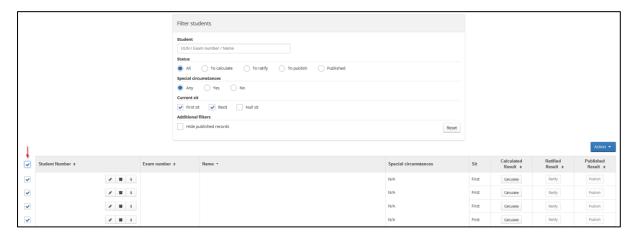

3. Select the students

You can select all or specific students using the tick boxes:

Select all

To select all students in your filtered list tick the box at the top beside the column headings:

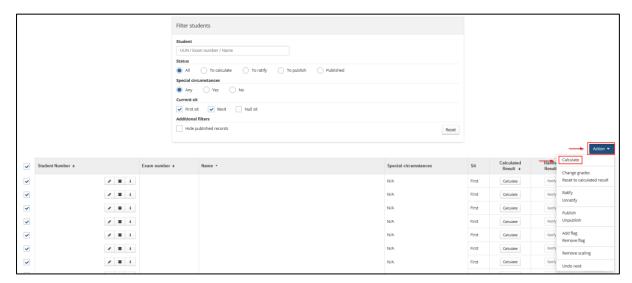

Select specific students

To select specific students tick the box on the left of their UUN:

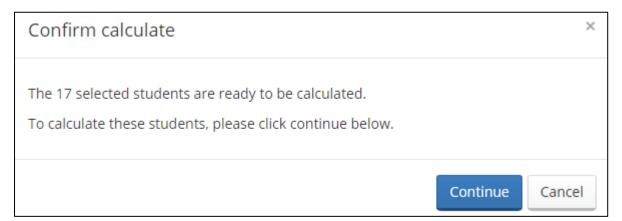

4. Click the Action menu and select 'Calculate'

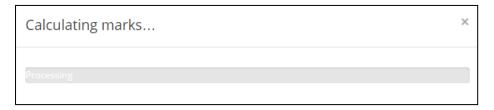

5. Click continue

Check the details on the "Confirm calculate" prompt and click Continue:

You'll now see a processing bar:

Once it's finished you'll see the students have a result under the Calculated Result column:
