

DHHPS Price List (1st August 2023-31 July 2024)

All charges will be levied through a farm's veterinary practice or feed supplier. VAT will be applied at the current rate.

<p>DHHPS Blood Testing Membership (£187.50 charged quarterly)</p> <p>Charged per herd and allows as many tests (maximum of 17 cows per test) as required (within reason! The usual number is 3-4 p.a. but some years more are necessary to get the full picture. We reserve the right to make additional charges if the number of tests done in a herd looks like becoming unreasonable!)</p> <p>Includes: BOHB, glucose, NEFA, urea-nitrogen, albumin, globulin, magnesium and phosphate. Copper and GSHPx (ref. selenium) are included only in a farms' first test, if required they can be done on subsequent tests but will attract additional charges – see below.</p> <p>Full DHHPS membership includes the facility to submit monthly health data for a rate and trend quarterly herd health report meeting the requirements of Red Tractor Assurance for Farms: Dairy Scheme.</p> <p><i>DHHPS Membership will be for a full year in the first instance. We shall assume it will continue after that on a quarterly basis unless notified in writing to the contrary.</i></p>	<p>£750</p> <p>Charged quarterly for minimum of one year</p>
<p>DHHPS One-Off Test</p> <p>Includes: BOHB, glucose, NEFA, urea-nitrogen, albumin, globulin, magnesium, phosphate, copper and GSHPx for selenium.</p> <p>Farms can convert to full DHHPS membership after a One-Off test with the charge deducted from the cost of membership in the first year.</p>	<p>£420</p> <p>17 cows max</p>
<p>Dry Cow Check/ Beef Suckler Test</p> <p>Includes: BOHB, glucose, NEFA, urea-nitrogen, albumin, globulin, magnesium, phosphate, copper and GSHPx (ref. selenium).</p>	<p>£350</p> <p>12 cows max or £40 per cow (min 6 cows £220)</p>
<p>Pre-Lambing Sheep Test (lambing season 2024)</p> <p>Includes: BHB, magnesium, urea-nitrogen, albumin and copper</p>	<p>£200</p> <p>1-20 sheep (£10/extra sheep)</p>
<p>Summer Pre-mating Sheep Test</p> <p>Includes: Copper, GSHPx (ref. selenium), Vitamin B12, albumin, globulin</p>	<p>£320</p> <p>10 sheep</p>
