

THE UNIVERSITY *of* EDINBURGH

## Guide to Service Requests

### Background

This guidance provides information on the Service Request categories available within People and Money Helpdesk, as well as guidance on which categories that should be used if you require additional assistance with an HR Policy or People and Money User Guide. In the first instance, if you have any questions at all to do with our new HR, Payroll or timecard processes or the People and Money system, please search People and Money's in-system guidance - My Knowledge – first. To search My Knowledge, log in to People and Money, choose 'Help Desk and then 'My Knowledge'. This will give you information tailored to your specific query and role, ranging from user guides to videos.

In accordance with our Process User Guides and HR Forms, you may be required to submit a Service Request in order to complete an HR or Payroll Task. The information below also explains which forms should be submitted along with these requests. By selecting the appropriate category, your Service Request will be automatically routed to the appropriate team for processing in the first instance, avoiding any unnecessary delays.

### What is a Service Request?

The term Service Request is used to describe a help ticket which is opened within People and Money. The ticket is then sent to the HR helpline for review and response or sent on to other HR teams or Payroll Services to process as needed.

Wherever feasible, we urge all users to **submit their Service Requests through the People and Money Helpdesk App**, as this route allows you to type the relevant category name as indicated below into the category box and attach attachments to the Service Request.

To ensure that your request is handled as efficiently as possible, we recommend that customers include a meaningful 'Title' in their request. For example, if your request is about a specific payroll, please include this in the title.

Service Requests can be created via an email to

Further guidance on raising a Service Request is available within the [How to raise and maintain a Service Request Enquiry](#) user guide.
