

History and Today: Inspiring Women

Thank you for joining us for our showcase of inspiring women from the past and present.

We've chosen seven scientists who represent many areas of science, from all around the world, and from a variety of different backgrounds. All of them smashed through barriers for women, including gender and racial discrimination. They are dedicated, determined, and aren't afraid to ask questions, which is why they have earned their place in history and in our gallery today.

We hope you enjoy learning about them, and that they inspire you to keep exploring the world around you.

- Marie: Botanist and Inspirational Teacher
- Ayana: Biologist and Conservation Activist
- Katherine: Award-winning Mathematician at NASA
- Hayat: Global Health Care Advocate
- Sarah: COVID-19 Vaccination Pioneer
- Sara: Biologist and Neurodiversity Champion
- James: Surgeon and LGBT+ Trailblazer
