

Improved quality of life for people living with asthma

Improved preventative practices

Better predictors of outcomes

More accurate and timely diagnosis

New approaches to care delivery

National self care strategies

Improved public knowledge

Asthma UK Centre for Applied Research

Asthma UK Centre for Applied Research MAPPING OUR IMPACT*

Transformed applied asthma research culture and environment

Increased funding for asthma research

Increased collaborative practice and partnerships

Increased awareness of the value of asthma research

Increase in public engagement, trust and confidence in research

Asthma research brought into the public interest

Applied Asthma Research Network acknowledged as best practice

Research collaborations increase

Centre support enables researchers to be more efficient

Increase in number of new researchers with expertise in respiratory research

Students & early career researchers build interdisciplinary networks

Students & early career researchers acquire new research skills

Centre approach to PPI seen as best practice

Researchers change how they engage with patients

Researchers gain new knowledge and skills in PPI

Changes in policy, guidelines and practice

Greater focus on individual needs

People with asthma gain broader understanding of research process

Increased collaborative research grants, publications between network members

Researchers collaborate more and develop a sense of community

Interdisciplinary researchers better understand perspectives and research approaches

Increased enthusiasm for collaborative asthma research

External stakeholders understand needs of people with asthma better

External stakeholders understand value of collaborative research and aware of research outputs

Core Infrastructure

Support research & create an internationally acclaimed collaboration

Postgraduate Training

Provide multi-disciplinary training programme to build future capacity

PPI Network

Establish UK-wide PPI network, embedded within all research activities

High Quality Research

Underpin research processes and outputs with robust methodology

Systems for Engagement

Influence practice through advocacy, comms and stakeholder engagement

*AUKCAR Theory of Change model
