

# Noteable Multiple Marker File Path

Last updated by Noteable Service Team on 4<sup>th</sup> September 2023

From 4<sup>th</sup> September 2023, all new Noteable instance created in a new Learn course will be default to the Multiple Marker system. EDINA confirmed that Multiple Marker can run in parallel with the Single Marker system, but each Learn course can only be associated with either one. Further information can be found at EDINA webpage:

<https://noteable.edina.ac.uk/documentation/multi-marker/>

The new assessment file path in the Multiple Marker system is default to `"../instructor-courses/the learn course code/source/"`. See screenshot below.

In comparison, the previous Single Marker's assignment file path was `"../source/"`. See screenshot below.
