### How to Create and Manage a Job Offer

Hiring Manager and School/Department Administrator or Business Support

Estimated time to complete: 12 minutes

Please familiarise yourself with the [Guide to Recruitment and Onboarding](#).

This guide includes the steps for how to create, redraft and extend a job offer to a candidate. A redraft may be required if the job offer is rejected by HR Operations, or if it is rejected by the candidate, but the steps involved are the same.

Only the recruiter, hiring manager or offer specialist within the offer team can submit/edit an offer, collaborators are no longer be able to submit or edit the offer, this can be updated by the Recruiter by adding you as an Offer Specialist within the offer team.

Please do not download and edit an offer letter from the People and Money Offers page.

Please refer to the offer letter [template library](#) to select, edit and save your offer letter in PDF format (to avoid editing) **prior** to completing the on-system steps.

Uploaded attachments are separated into **Candidate Facing** which are made available to the candidate and stored in the new hire's Documents of Record for future reference, and **Internal Documents** which are only visible to internal users e.g the recruiting team and HR Operations.

Please ensure that any **position** changes are made prior to the job offer being drafted.

You must add **allowances** (if applicable) to the **Other Compensation** section. If the allowance you need is not listed please add this to the comments and attachments section.

The **Default Expense Account Code** must be added for all pending workers. This enables users to submit any future expense claims. This will be captured within the approved Job Requisition Business Case Form.

You can track the progress of the approval for an offer once submitted, see the section below on [Checking Offer Approval](#).

You can now **copy a job offer** where there are multiple or bulk offers to be extended. Please see the step by step details [below](#).

Payable to those who, as a condition of employment, are required to normally work in London or parts of Greater London and as a consequence are required to live in London or within daily commuting distance.

**What information do I need to enter?**

You must enter a start date and end date for this allowance. London Weighting in most cases will be ongoing with no end date, so you should enter 31/12/2066 in the end date field. If there will be a specific end date for the allowance you should add that date.

The 'Amount' field defaults to 3,000.00 and is the annual amount the employee will receive. Do not override this value. The annual amount will be divided by 12 (months in the year) and paid in monthly instalments to the employee.

Leave the 'Pay Value' field blank as this is for payroll use only.

The system will flag an error if there is not enough openings.
- To copy an existing offer the person copying the offer must be part of the offer team for the first offer.
- It's preferable to select a recent offer to copy because it contains active values. Older offers on this requisition may no longer be selectable, or if they have values that aren't current anymore then the copying will be unsuccessful.

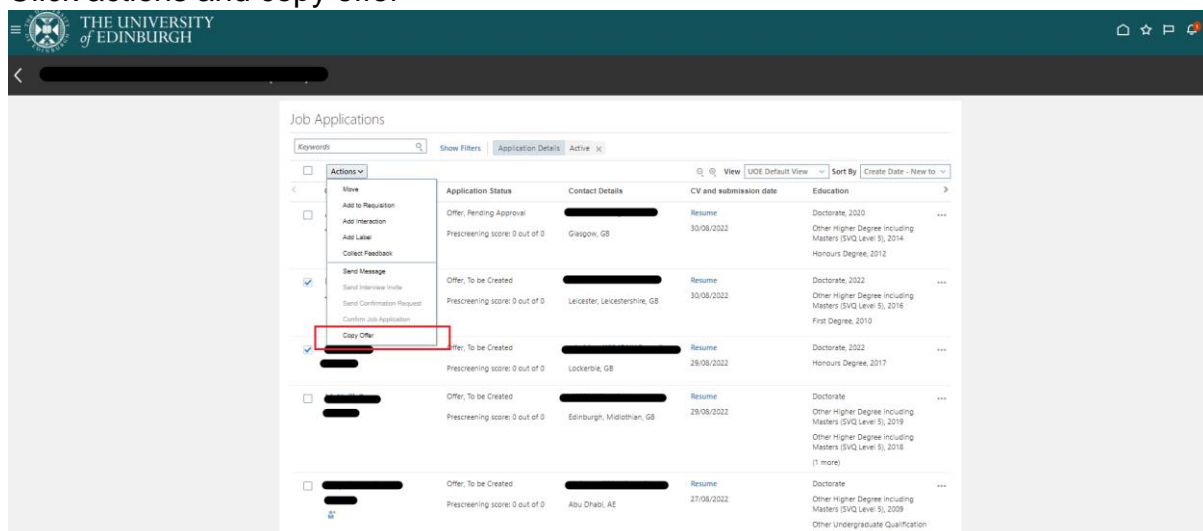

### In Detail...

1. Create one offer from the list of successful candidates, following the steps above 'Creating a Job Offer' steps 1 to 16. The Job offer can be saved as a draft or can be submitted for approval.
2. Next, select the additional candidates that will also need an offer created

The screenshot displays the 'Job Applications' page in the University of Edinburgh's system. The page header includes the university logo and name. Below the header, there is a search bar and a filter menu. The main content is a table with the following columns: Candidate, Application Status, Contact Details, CV and submission date, and Education. The table contains several rows of data. Two rows are selected, indicated by blue checkmarks in the left margin. A red box highlights the 'Offer, To be Created' status for these two rows. The table also shows 'Prescreening score: 0 out of 0' for each row. The 'Education' column lists various degrees and qualifications for each candidate.

## What happens after submitting the batch copy offer process?

When you submit the Copy Offer action, here's what can happen:

- If the batch copy offer process is successful, all of the offer content and attachments on the offer are copied to create new job offers for the selected candidates.
- If there are warnings, the new offers still get copied.
- If there are errors, the batch copy offer process stops.

The table presents possible warnings and errors that can occur during the batch copy offer process.

Warning or Error	Scenario
Warning	The original offer letter was adjusted to include specific info about the candidate. You'll see a warning message asking you to update each new candidate's offer letter after it gets copied. Copies will then be created.
Error	The recruiter or hiring manager on the original offer is no longer working for the company. The batch copy offer process can't proceed. You'll see an error message asking you to select a different candidate's offer to be copied.
Error	The original offer has no salary amount or no offer letter, or the job requisition doesn't have enough openings left to accommodate all of the candidates selected (and you don't have the privilege Communicate Job Offer Ignoring Number of Openings).

In case of any failure, all of the selected candidates will likely have a partially-created offer but you will have to check the Errors section for each candidate's offer to see which regions' fields were unable to be copied. For example:

The Assignment section may not be filled out for all the new candidates if the original offer's assignment had a location or grade that's currently inactive.

The Other Compensation section may be empty for all the new candidates if they don't satisfy the eligibility profile or element eligibility for the original offer's Individual Compensation Plan.

These incomplete new offers will remain in the status Offer - Draft so that the missing values can be manually provided as needed, even if the option selected

when copying the offer was “Submit new offers for approval”. When each offer is edited to be complete, you can submit them individually for approval.

As soon as the batch copy offer process is finished, you may receive a notification if this was configured by your administrator. The notification indicates the number of offers that were successfully copied as well as the number of offers that failed, were skipped, or cancelled.
