Introduction

Please familiarise yourself with the Family Leave Policies.

You can check what maternity options are available to you in the Maternity Calculator within People & Money without submitting a maternity leave request. To use the Maternity Calculator

1. Log into People and Money
2. Click on Me
3. Click on Maternity Calculator

Employees on Guaranteed Hours Contracts and those due to end employment due to redundancy should contact HR for pay options instead of using the calculator. You can contact HR by raising a Service Request in People and Money. Guidance on how to do that can be found here.

For all situations other than unpaid parental leave, once the application has been submitted the Line Manager will receive a notification of the application. For parental leave the Line Manager will not only receive a notification, they will need to approve the leave.

Line Managers may request you delay your parental leave.

Any existing absences (such as annual leave) that have dates that overlap with the leave request should be deleted prior to processing the absence. Please see the section, 'Edit an Absence before the Start Date' for further information.

To read supporting guidance please review the relevant End to End Process User Guides
