

THE UNIVERSITY of EDINBURGH

Social Responsibility and Sustainability

Report 2014/2015

**Social Responsibility
and Sustainability**

Foreword

As a global and world leading university, Edinburgh seeks to benefit society through the research it conducts, and the students who learn here and whose lives are influenced here.

In addition, as a large organisation with hundreds of buildings, thousands of students and staff, with supply chains reaching across the world, the University impacts people and nature through the way in which it operates and undertakes its work. Making sure that impact is a positive one is important to us.

High quality and impactful programmes continue to catalyse action and collaboration across campus and support our Social Responsibility and Sustainability Strategy.

In line with our commitments to responsible investment, our review resulted in a change of fossil fuel investment policy and a decision to divest from three of the world's biggest coal and tar sands companies.

The University continues to build its relationship with the city by being an active partner of the Edinburgh Festivals, making academic research accessible to the local public and policy makers, supporting local social enterprises and through the volunteering efforts of its staff and students.

This report illustrates the continued progress made by staff and students in 2015 to make a more socially responsible and sustainable university.

Dave Gorman
Director of Social Responsibility and Sustainability

About us

Launched in April 2014, the Department for Social Responsibility and Sustainability supports the University to ensure that our learning and teaching, research and operations are socially responsible.

We're saving paper by printing only the highlights.

“A commitment to social responsibility has long been part of the University’s ethos, appearing formally in our Strategic Plan since 2004.

We take a whole institution approach recognising this includes: existing sustainability and carbon initiatives; sustainable procurement, fair trade and supply chain issues; responsible investment issues; embedding social responsibility and sustainability issues in the learning, teaching and research of the University; access to education and widening participation issues; fair employer and equalities and diversity issues; and community and public engagement

Professor Charlie Jeffery
Senior Vice Principal

£2 billion

Gross value added to the Scottish economy in 2013/14, supporting more than 31,000 jobs - mostly in Edinburgh.

Source: BIGGAR Economics

This year, the Scottish Fair Trade Forum gave the University a Special Recognition Award to celebrate our commitment to fair trade.

The University became the first in Scotland to be recognised by the Sustainable Restaurant Association (SRA), gaining a two-star ‘excellent’ accreditation in 2015.

31%

Growth in female staff at highest pay grade; male staff increased by 17%.

57%

Proportion of Edinburgh Festivals tickets hosted in University buildings.

100%

Proportion of fund managers we work with who are signatories of to the United Nations Principles for Responsible Investment.

Climate change, energy and utilities

The University accepts its responsibility to ensure it takes forward action on climate change by reducing its direct emissions, and influencing carbon emissions from its indirect operations.

Carbon emissions 2007-15

University key performance indicators

	06/07	07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15
Tonnes CO ₂ per £m turnover	124	139	127	131	136	124	122	112	100
Tonnes CO ₂ per 1000m ² GIA	99	110	114	126	131	107	111	107	101

£6.8m
Value of bursaries awarded to 2,600 students from the lowest income groups in England, Wales and Northern Ireland in 2014/15, the most generous in the UK.
