1. What is it?

UoE Share Buttons is a plugin that automatically adds social media share buttons at the bottom of your posts.

2. What does it do?

If enabled, this plugin will add share buttons for Facebook, Twitter, LinkedIn and email to the bottom of your post content. This will allow readers to share content quicker and to a broader audience.

3. How does it work?

To enable this plugin, go to your **Dashboard** and click on **Plugins**.

In the list, find **UoE Share Buttons** and click **Activate**.

Enable this plugin to add share buttons for Facebook, Twitter, LinkedIn and email to the bottom of post content.

The buttons will automatically appear afterwards. See below for an idea of what they will look like.
