

What is leadership?
How can we apply it in a way that supports our interdisciplinary research and benefits others within the university?

We are an interdisciplinary cohort of ten students, collaboratively co-designing and co-creating a space of our own, learning about leadership.

- Community, wellbeing, supporting transitions
- Transforming engagement with learning and teaching
- Equality, diversity, and inclusion

Co-Creating Leadership in Ageing and Care

Three phases:
1. Learning
2. Doing
3. Reflecting

In practice...

1. A seminar series
2. Workshops with students
3. Discussions and dissemination

- Learn from trying different things
- Cultivate resilience
- Leave space for unpredictability
- Enjoy the creative potential
- Get comfortable with uncertainty
